*c't Working with AI* c't-Redaktion, 2024-01-24 The special issue of c't KI Praxis provides tests and practical instructions for working with chatbots. It explains why language models make mistakes and how they can be minimised. This not only helps when you send questions and orders to one of the chatbots offered online. If you do not want to or are not allowed to use the cloud services for data protection reasons for example you can also set up your own voice AI. The c't editorial team explains where to find a suitable voice model, how to host it locally and which service providers can host it. The fact that generative AI is becoming increasingly productive harbours both opportunities and risks. Suitable rules for the use of AI in schools, training and at work help to exploit opportunities and minimise risks.

Experts share their knowledge so you can live carefree It has never been more dangerous and at the same time easier than today to entrust one's privacy and personality to strangers If people are regarded as digital goods and they hardly notice it themselves due to a lack of knowledge this will cost freedom security and livelihoods Creating more security for everyone should be the top priority This includes protection against data and identity loss Data security issues are unmistakable Millions of identities are stolen every year The Internet and our worldwide network has degenerated into a pure propaganda and manipulation tool Exacerbated by poor quality and excessive use the Internet and connected systems have become the No 1 resource and time waster Data protection laws alone are not enough so concepts like the S o P are a must in our time The whole world is a stage and all women and men are mere players they perform and leave again Shakespeare

policymakers 2014 The solo exhibition Ai Weiwei absent at Taipei Fine Arts Museum TFAM is the artist's first large scale solo exhibition to be held anywhere in the ethnic Chinese world. The museum presents the exhibition to convey Ai Weiwei's dynamic works of art, his ideas and influential power to audience. Ai Weiwei absent presents 21 sets of artwork spanning a period from 1980s to 2011 encompassing a variety of forms such as installation and video and using a variety of materials such as ceramics, marble, antique utensils and bicycles. It also includes a series of over 100 photographic works, 75 of which were taken by the artist during his stay in New York between 1983 and 1993 while the other 25 pieces were shot after he moved back Beijing East Village in 1993. The artist's most recent work, *Forever Bicycles*, created specially for this exhibition, is composed of 1,200 bicycles and installed in an exhibition space 10 meters high. Bicycles have long been the most common means of transport in China and as such are both familiar and intimate but Ai Weiwei strips away the functionality of the object. He takes his own sensitivity and preferences and through them expands the idea of using finished objects. The use of 1,200 bikes and the large structure of the work were particular challenges in the construction of the piece. In addition, as the bikes are piled layer upon layer on top of each other, their wheel axles are transformed to form a labyrinthine like space. Visitors can appreciate and reflect on the aesthetics of the abstract shapes from different angles at the same time, feeling first hand the work's great energy and appeal.
