first time **Empowering Civil Society in the Industrial Revolution 4.0** Sukowiyono, Siti Awaliyah, Peter Carey, Max Lane, Chen Fei, 2021-10-25 ICCEDI is an international seminar that is held every two years organized by the Law and Citizenship Department Faculty of Social Science Universitas Negeri Malang. The activities aim to discuss the theoretical and practical citizenship education that becomes needed for democracy in Indonesia and other countries with a view to build academic networks by gathering academics from various research institutes and universities. Citizenship education is an urgent need for the nation in order to build a civilized democracy for several reasons. Citizenship education is important for those who are politically illiterate and do not know how to work the democracy of its institutions. Another problem is the increasing political apathy indicated by the limited involvement of citizens in the political process. These conditions show how citizenship education becomes the means needed by a democratic country like Indonesia. The book addresses a number of important issues such as law issues, philosophy of moral values, political government, socio cultural and Pancasila and civic education. Finally, it offers a conceptual framework for future democracy. This book will be of interest to students, scholars, and practitioners, governance and other related stakeholders.

Producing Precarity Curtis Marez, 2025-08-26 The hidden cost of TV production for communities of color. *Producing Precarity* is a long overdue examination of the television industry's practice of offshoring production to impoverished sites within the US. The author, Curtis Marez, focuses on state efforts to attract film and TV producers to poor places with tax incentives, discounted public lands, and subsidized infrastructures. He argues that these efforts result in the redistribution of wealth from poor people of color, Indigenous people, and other taxpayers to Los Angeles-based media makers, while also diverting money that could be used for education and health care to the wealthy. The popular series produced in these places, such as *Breaking Bad*, *The Watchmen*, *Lovecraft Country*, *The Walking Dead*, and *Vida*, are praised by critics and awards organizations and highlighted by streaming services for challenging genre, casting, and narrative conventions. However, many of these shows rely on racialized and gendered low-wage labor for production, and diversity, equity, and inclusion representations can sometimes perpetuate repression, such as depicting police as diversity champions. *Producing Precarity* examines how contemporary streaming shows from these areas promote racial inequality in ideology and content, as

well as materially through their local production methods and perceptually through streaming distribution modes that discourage viewers from understanding how TV is made Marez also provides examples of local resistance including movements against a police training center and a film studio in Atlanta as well as anti gentrification movements in Latinx neighborhoods of LA
