The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us Joe Federer,2020-09-15 From the former Head of Brand Strategy at

Reddit comes a proven and thought provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy and psychology as well as more than a decade of hands on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets. Platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. *Fascinating and deeply compelling* **The Hidden Psychology of Social Networks** will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative and in the end deliver more effective marketing that provides value. **Say Hello** Carly Findlay, 2019-02-01. A forthright, honest and rousingly triumphant memoir from a woman who has to live with a highly visible, different appearance due to a rare skin condition. *Say hello to Carly*. In fairytales, the characters who look different are often cast as the villain or monsters. It's only when they shed their unconventional skin that they are seen as good or less frightening. There are very few stories where the character that looks different is the hero of the story. I've been the hero of mystery, telling it on my own terms, proud about my facial difference and disability, not wanting a cure for my rare, severe and sometimes confronting skin condition and knowing that I am beautiful even though I don't have beauty privilege. This honest, outspoken and thought provoking memoir by award winning writer and appearance activist Carly Findlay will challenge all your assumptions and beliefs about what it is like to have a visibly different appearance. Carly lives with a rare skin condition, Ichthyosis, and what she faces every day and what she has to live with will have you cheering for her and her courage and irrepressible spirit. This is both a moving memoir and a proud manifesto on disability and appearance diversity issues. Believe the hype by turns frank, funny and fearsome. Findlay's extraordinary memoir is an early contender for 2019's best Australian non-fiction. A powerful and moving invitation to examine the structures of privilege and dehumanisation that we so desperately need to address in this country. *Better Read Than Dead*. A proud celebration of appearance difference, a valuable read. *Herald Sun*, *Defiant*, *unsettling* and thought provoking. *The Age*.
