☐T___ 22. After a solution to a user problem has been found, an explanation is a communication where a support agent describes the solution so a user understands both the problem and the solution.

☐F___ 23. Verification is a troubleshooting procedure that tries to repeat the same problem on another PC.

☐T___ 24. The books and manuals in a troubleshooter's personal or professional library are part of his or her knowledge base.

☐F___ 25. A knowledge base is the personal experiences a support agent brings to the table to solve a problem.

☐F___ 26. Most hardware troubleshooters don't use Internet search engines to locate potential problem solutions because they rarely know the exact model number of hardware devices with problems.
