**SOAP FORMAT**

**S - Subjective**

Patient states facts that support the focus of the session. Brief statements quoted to the patient may be used, as well as paraphrased statements.

Client reported feeling depressed, but not suicidal, since his bike accident and stated "I didn't care if I was sad with the pain or crash." He stated, "I don't believe in treatment, but I'll give it a try as long as I have help with the cravings." He reported being fearful of relapse due to strong cravings, but stated "I feel better being on Suboxone, it makes the cravings more manageable." He reported residual pain from his bike accident.

**O - Objective**

Observable data or information supporting the subjective statements. This may include the physical appearance of the patient (e.g., weight, clarity, comfortable, disheveled, well-groomed, well-maintained, etc.) signs, results of completed lab/diagnostic test, and medications the patient is currently taking or being prescribed.

Client was withdrawn and guarded. He participated in group therapy and engaged in the group process with the help of the counselor. He was able to identify two "triggers," such as "seeing the scene from my accident" and "being around other people who use stuff." Withdrawn symptoms have resolved, however, he still has strong cravings despite improvement since starting Suboxone.

**A - Assessment**

The counselor's or clinician's assessment of the situation, the session, and the patient's condition, progress, response to intervention, and progress in achieving treatment plan goals/objectives. This may also include the diagnosis with a list of symptoms and information used in differential diagnosis.

Opioid use: post-withdrawal. Overall, Mr. Doe appears engaged in SUD treatment at this time. He still has strong cravings and is fearful of relapse, but appears to be responding to Suboxone. Unclear if higher dose is necessary – will coordinate with Suboxone prescriber. He continues to report depressive and pain symptoms and would benefit from further mental and physical health follow up, respectively.

**P - Plan**

The treatment plan/next forward, based on the clinical information reported and the assessment.

**Substance Use**

- Client will continue DOP and MAT as prescribed. He agreed to attend at least 1 Narcotics Anonymous meeting at least 1x per week. Continue Suboxone and coordinating with Suboxone prescriber.

- Counselor will refer the client to case management for help with housing and employment. Mental Health

- Given ongoing depressive symptoms, will refer for mental health assessment.

**Physical Health**

- Client will call his PCP to make an appointment by next week.

- Refer to case management to Cx to ensure the client made PCP appointment.

If the patient's preferred language is not English, were linguistically appropriate services provided?

**Handbook of Methadone Prescribing and Buprenorphine Therapy** Ricardo A. Cruciani, Helena Knotkova, 2014-07-08 Methadone and buprenorphine are the only two opioids that are indicated for the management of both pain and opioid related drug addiction Both present unique challenges to the general practitioner and pain specialist requiring a separate analysis from the rest of the drugs in the same family Handbook of Methadone Prescribing and Buprenorphine Therapy is an invaluable guide to the safe use of these opioids Authored by clinical and academic leaders from a variety of settings and backgrounds this book includes chapters on pharmacology adverse effects safe rotation from other opioids cardiac toxicity prescribing pharmacokinetics equianalgesic dose and replacement therapy This comprehensive text provides clinicians researchers policy makers and academicians a resource for all the relevant points in methadone prescribing and buprenorphine therapy **Practical Considerations for the Clinical Use of Buprenorphine: A Reprint from "Science and Practice Perspectives"**, **The Treatment of Opioid Dependence** Eric C. Strain, Maxine L. Stitzer, 2006 The successor to Strain and Stitzer's Methadone Treatment for Opioid Dependence Johns Hopkins 1999 this expanded and updated volume reflects new developments in treatment protocols Methadone is still the most widely used medication for the treatment of opioid dependence and the authors provide an extensive section on methadone treatment Three chapters cover the pharmacology and clinical use of buprenorphine as well as the latest research on Naltrexone Clonidine and Lofexidine The volume also includes chapters on pain and prescription opioids as well as medication free treatment and medically supervised alternatives to opioid substitute treatments including withdrawal The Treatment of Opioid Dependence will be a valuable resource for methadone counselors psychiatrists psychologists social workers mental health nurses and addiction counselors as well as physicians interested in office based buprenorphine treatment

**Ghodse's Drugs and Addictive Behaviour** Hamid Ghodse, 2010-02-11 This classic text provides a comprehensive accessible overview of substance misuse and dependence with an emphasis on practical and evidence based approaches to the assessment management and prevention of a wide range of drug related problems in a variety of clinical and social settings The book includes definitions of terms and describes the effects and clinical characteristics of all substances of misuse The theoretical background to these topics is clearly explained For the fourth edition every chapter has been revised to include the most up to date information with the latest international data on the extent of the world drug problem There is detailed emphasis on harm minimization AIDS and hepatitis C and entirely new coverage of tobacco addiction and its management This is an essential guide for all healthcare workers health policy specialists counselors and those seeking to train in areas related to addiction and substance misuse *Drugs* Great Britain: Parliament: House of Commons: Home Affairs Committee, 2012-12-10 Whilst it supported a number of steps the Government has taken in its 2010 drug strategy it believes more needs to be done to comprehensively address the drugs problem in the UK The report focuses on the need to

break the cycle of drug addiction and highlights in particular the need for improved treatment in prisons and wider society and for early intervention with better education and preventative work Three key areas were covered prisons treatment and the calling for the establishment of a Royal Commission into the issues The Committee was disturbed to find that almost a quarter of prisoners found it easy to get drugs in prison and recommended that measures such as regular random drug tests based on suspicion be increased It was concerned that the Government's policy of recovery was not being implemented in particular that drug rehabilitation in prison was undermined by the lack of support for offenders on release and did not take into account prescription drug addiction The Committee is also concerned that the goal of retaining addicts in treatment has precluded attempts at recovery It supported the Government's objective of recovery but noted that this will require a range of treatment options with each individual needing a tailored treatment plan The Committee highlighted residential rehabilitation and the use of buprenorphine as an alternative to methadone as two treatment methods which were currently under utilised Treatment must also be supplemented by housing training and employment support if required

**Social Issues in Living Color** Arthur W. Blume, 2017-02-16 Offering fresh and exciting approaches to solving global problems this book creatively views challenging social issues through the lens of racial and ethnic psychology As the demographic makeup of the American population continues to evolve understanding and addressing the psychological needs of ethnic minorities in the United States becomes more important to the overall health and well being of society This three volume set is the first publication to explicitly tackle social issues from the perspective of racial and ethnic psychology It uniquely presents racial and ethnic psychological perspectives on topics such as media criminal justice racism climate change gender bias and health and mental health disparities Volume one introduces readers to the basic scientific concepts of racial and ethnic minority psychology and then examines the intersectionality of race ethnicity gender and sexual orientation It also addresses how race and ethnicity affect communication styles leadership styles and media The second volume discusses the experiences of individuals within racial and ethnic minorities including overt racism covert racism and colonialism and addresses how ethnic minority psychology plays a role in our educational system poverty global climate change and sustainability The third volume covers ethics in health and research considers the causes of health and mental health disparities and identifies diversity initiatives that can improve the health and well being of all citizens not just racial and ethnic minority citizens
