The Mother-daughter Relationship Washington Square Institute, 1997 **1996 WSI Annual Conference the Mother-Daughter Relationship** Conference the Mother-Daughter Relationship. 1996, New York, NY., Washington Square Institute for Psychotherapy and Mental Health. New York, NY., 1997 **The Mother-Daughter Relationship** Gerd H. Fenchel, 1998-03 This book explores the mother daughter bond within the life cycle from early development on into the turbulence of adolescence and the ambivalence of separation then to the daughter's marriage and maternity and finally thoughtfully to reparative opportunities inherent in the mother's aging and dying *The Psychological Development of Girls and Women* Sheila Greene, 2014-02-25 In this book Sheila Greene presents a challenging new perspective on the psychological development of girls and women which emphasises the central role of time in human development She critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those claiming to be focused on development have presented a view of women's lives as fixed and determined by their nature or their past These theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women Greene's approach places primary importance on temporality itself and on the competing discourses on time age and development which play an active role in the construction of the lives of girls and women Essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasises temporality emergence and human agency The result is a liberating theory of women's psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal history The *Psychological Development of Girls and Women* will be essential reading for students and researchers in the psychology of women developmental psychology and women's studies **Woman's Inhumanity to Woman** Phyllis Chesler, 2009-05-01 Drawing on the most important studies in psychology human aggression anthropology and primatology and on hundreds of original interviews conducted over a period of more than 20 years this groundbreaking treatise urges women to look within and to consider other women realistically ethically and kindly and to forge bold and compassionate alliances Without this necessary next step women will never be liberated Detailing how women's aggression may not take the same form as men's this investigation reveals through myths plays memoir theories of revolutionary liberation movements evolution psychoanalysis and childhood development that girls and women are indeed aggressive often indirectly and mainly toward one another This fascinating work concludes by showing that women depend upon one another for emotional intimacy and bonding and exclusionary and sexist behavior enforces female conformity and discourages independence and psychological growth [Crossroads at Midlife](#) Frances Cohen Praver, 2004-06-30 With medical science health care and healthy lifestyles extending our lifespans as never before more and more midlife adults are finding themselves caring for their aging parents

This role can trigger not only logistical and financial challenges but also great emotional upheaval. There is a reversal of roles as the child often in the midst of raising his or her own adolescent or young adult offspring becomes the caretaker of the parent. A parent's aging and mortality elicits strong feelings of loss and a stark realization of one's own aging and mortality. Past, present, and future paths converge and the caretaker is at the center of that crossroads. Psychologist Praver, a specialist working with such caretakers, shows us their inner worlds and how they used a difficult point in their lives to embark on a journey of self-understanding and self-transformation, a journey toward a more meaningful life for themselves. Readers can gain a better understanding of their own lives and know they are not alone in their struggles to contend with and find powerful benefits from the emotional side of caring for an aging parent. Distress can become peace of mind as we see in the stories of men and women who sought Praver's help. Relationships that might be weakened by a caretaker role, relationships between caretakers and their children, spouses, and friends can actually grow stronger with the experience. Profound issues affecting caretakers are shared in this evocative book, which is an enlightening and enjoyable read. **The Subject of**

Gender Harriet Evans, 2007-11-28. Women in urban China have lived through decades of political turbulence, extensive socio-economic change, and the transformation of gender practices, expectations, and relationships. Among these is the mother-daughter relationship, one that has profound influence on women's gendered subjectivity but one that has been overlooked in research on gender and family in China. In *The Subject of Gender*, Harriet Evans reflects on how women in urban China make sense of the shifts in practices and representations of gender that frame their lives and how their self-identification as mothers and daughters contributes to the redefinition of those practices. Based on the memories and experiences of educated and professional women of different ages, this book discusses the mother-daughter relationship through various themes: separation, communication, domestic/public boundaries, male privilege, the sexed body, reproduction, and filial responsibilities. This fascinating work draws on feminist and critical theory and on anthropological and historical research to analyze the changing articulations of gender subjectivity that emerge from the links between discursive shifts, generational difference, and individual experiences of the mother-daughter relationship. BOOK JACKET **Bibliographic Guide to Psychology** New York Public Library. Research Libraries, 1998 *Romance Revisited* Lynne Pearce, Jackie Stacey, 1995. After decades of feminism and deconstruction, romance remains firmly in place as a central preoccupation in the lives of most women. Romance is still the most compelling discourse by which any one of us is inscribed. In this newly commissioned critical collection, romance is revisited across the disciplines, not just in fiction and film but in a whole range of cultural phenomena. Essays range over such issues as the royal marriage, Valentine's Day, interracial relationships, and the romance of the scientific quest. All kinds of relationships are brought under the lens of feminist cultural theory, from sex and the single nun to Yukio Mishima, from snugglet to safe sex.
