

Level 1: Understanding and Elaborating Questions

Overall, this is a reasonable question, but the power source is not clear. The question also does not make clear what the question is asking. What power source is being used for the motor and generator? Assume external DC power source and the generator supplies power to the motor. Explain this relationship.

Figure 1a: Step-Plotting: The graph shows the response of the generator to the motor.

The graph shows that motor step-increases from 0 to 100 volts. The generator step-increases from 0 to 100 volts. The motor step-decreases from 100 to 0 volts. The generator step-decreases from 100 to 0 volts. The motor step-increases from 0 to 100 volts. The generator step-increases from 0 to 100 volts. The motor step-decreases from 100 to 0 volts. The generator step-decreases from 100 to 0 volts.

Figure 1a: Step-Plotting: The graph shows the response of the generator to the motor. Explain this relationship.

- 1. What power source drives the motor? Explain why the motor step-increases from 0 to 100 volts.
- 2. What power source drives the generator? Explain why the generator step-increases from 0 to 100 volts.
- 3. What power source drives the motor? Explain why the motor step-decreases from 100 to 0 volts.
- 4. What power source drives the generator? Explain why the generator step-decreases from 100 to 0 volts.
- 5. What power source drives the motor? Explain why the motor step-increases from 0 to 100 volts.
- 6. What power source drives the generator? Explain why the generator step-increases from 0 to 100 volts.
- 7. What power source drives the motor? Explain why the motor step-decreases from 100 to 0 volts.
- 8. What power source drives the generator? Explain why the generator step-decreases from 100 to 0 volts.

Weather Climate Lab Manual Answer Key

Oscar Diedrich Engeln

Weather Climate Lab Manual Answer Key:

Resources for Teaching Middle School Science Smithsonian Institution, National Academy of Engineering, National Science Resources Center of the National Academy of Sciences, Institute of Medicine, 1998-04-30 With age appropriate inquiry centered curriculum materials and sound teaching practices middle school science can capture the interest and energy of adolescent students and expand their understanding of the world around them Resources for Teaching Middle School Science developed by the National Science Resources Center NSRC is a valuable tool for identifying and selecting effective science curriculum materials that will engage students in grades 6 through 8 The volume describes more than 400 curriculum titles that are aligned with the National Science Education Standards This completely new guide follows on the success of Resources for Teaching Elementary School Science the first in the NSRC series of annotated guides to hands on inquiry centered curriculum materials and other resources for science teachers The curriculum materials in the new guide are grouped in five chapters by scientific area Physical Science Life Science Environmental Science Earth and Space Science and Multidisciplinary and Applied Science They are also grouped by type core materials supplementary units and science activity books Each annotation of curriculum material includes a recommended grade level a description of the activities involved and of what students can be expected to learn a list of accompanying materials a reading level and ordering information The curriculum materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the guide The criteria reflect and incorporate goals and principles of the National Science Education Standards The annotations designate the specific content standards on which these curriculum pieces focus In addition to the curriculum chapters the guide contains six chapters of diverse resources that are directly relevant to middle school science Among these is a chapter on educational software and multimedia programs chapters on books about science and teaching directories and guides to science trade books and periodicals for teachers and students Another section features institutional resources One chapter lists about 600 science centers museums and zoos where teachers can take middle school students for interactive science experiences Another chapter describes nearly 140 professional associations and U S government agencies that offer resources and assistance Authoritative extensive and thoroughly indexed and the only guide of its kind Resources for Teaching Middle School Science will be the most used book on the shelf for science teachers school administrators teacher trainers science curriculum specialists advocates of hands on science teaching and concerned parents
