Advanced Information Technology in Education

Khine Soe Thaung, 2012-02-03 The volume includes a set of selected papers extended and revised from the 2011 International Conference on Computers and Advanced Technology in Education. With the development of computers and advanced technology the human social activities are changing basically. Education especially the education reforms in different countries has been experiencing the great help from the computers and advanced technology. Generally speaking education is a field which needs more information while the computers advanced technology and internet are a good information provider. Also with the aid of the computer and advanced technology persons can make the education an effective combination. Therefore computers and advanced technology should be regarded as an important media in the modern education. Volume Advanced Information Technology in Education is to provide a forum for researchers, educators, engineers and government officials involved in the general areas of computers and advanced technology in education to disseminate their latest research results and exchange views on the future research directions of these fields

Lab on the Web Tor A. Fjeldly, Michael S. Shur, 2003-09-25
