How to Start a Home-Based Event Planning Business Jill S. Moran, 2015-07-02 Event planning continues to be a thriving business area for the motivated entrepreneur. Jill S. Moran is a certified special events professional with twenty five years of experience in the field and the owner of an award winning event planning company. Stop Laura Weatherly, 2006-01-03 Probably the biggest, most expensive and complex event in everyone's life, a wedding is tough to plan, especially if it's the first one you've ever done. Caterers, DJs, The Dress, Music, Ceremony, Photographer, Place, Gifts, the details are endless and can cost you a bundle of money and tears unless you get some serious advice before you begin. And that's what Laura Weatherly's new book **Stop Don't Plan a Wedding Without This Book** does. As a professional wedding planner, she's seen it all and wants to share her experiences. Her book should be the first book the bride-to-be buys before all those fancy planners and theme honeymoon books. She'll give the real information about how to avoid common troubles such as choosing the right photographer, practical budgeting (including what percentage of the total budget each piece of the event, from cake to favors, should consume), and scores of other practical tips.

Feminism, Self-Presentation, and Pinterest Emily S. Johnson,2020-06-26 Feminism Self Presentation and Pinterest The Labor of Wedding Planning argues that Pinterest which has been largely criticized for perpetuating vapid stereotypical gender roles is actually a dynamic digital curation tool that facilitates meaning making around the important cultural event of the Western wedding Emily S Johnson through a thorough examination of how aspiring brides use the platform to plan their weddings found that Pinterest is a unique platform that offers brides the opportunity to construct their own wedding identity by engaging in creativity and exercising voice and agency during planning Even if the content they are consuming does support tenets of patriarchy or gender roles brides are able to make their own choices rather than having their goals determined for them through societal or familial norms and expectations The platform integrates both the online and offline labors of wedding planning as brides create meaning through the curation process and connect with the self as they execute their planning Overall Johnson argues that far from the stereotypes of fantasizing about dream weddings and luxurious lifestyles that may be unrealistic Pinterest gives brides increased ability to make their own specialized vision come to life Scholars of women s studies gender studies communication media studies cultural studies and rhetoric will find this book
