New Power Jeremy Heimans, Henry Timms, 2018-04-03 From two influential and visionary thinkers comes a big idea that is changing the way movements catch fire and ideas spread in our highly connected world For the vast majority of human history power has been held by the few Old power is closed inaccessible and leader driven Once gained it is jealously guarded and the powerful spend it carefully like currency But the technological revolution of the past two decades has made possible a new form of power one that operates differently like a current New power is made by many it is open participatory often leaderless and peer driven Like water or electricity it is most forceful when it surges The goal with new power is not to hoard it but to channel it New power is behind the rise of participatory communities like Facebook and YouTube sharing services like Uber and Airbnb and rapid fire social movements like Brexit and BlackLivesMatter It explains the unlikely success of Barack Obama's 2008 campaign and the unlikelier victory of Donald Trump in 2016 And it gives ISIS its power to propagate its brand and distribute its violence Even old power institutions like the Papacy NASA and LEGO have tapped into the strength of the crowd to stage improbable reinventions In New Power the business leaders social visionaries Jeremy Heimans and Henry Timms provide the tools for using new power to successfully spread an idea or lead a movement in the twenty first century Drawing on examples from business politics and social justice they explain the new world we live in a world where connectivity has made change shocking and swift and a world in which everyone expects to participate **The Wall Street Journal**, 2007 *F & S Index United States Annual*, 2006 PayPal Hacks Shannon Sofield, Dave Nielsen, Dave Burchell, 2004-09-07 If you've bought or sold items through eBay or through hundreds of other online sites then you're familiar with PayPal the online payment service With PayPal a valid email address and a credit card or bank account you can easily send and receive payments online Not a bank or financial institution itself PayPal describes its service as one that builds on the financial infrastructure of bank accounts and credit cards and using advanced propriety fraud prevention systems creates a safe global real time payment solution Put simply PayPal provides the means for people to conduct financial transactions online instantly and securely But there's more to PayPal than meets the eye PayPal Hacks shows you how to make the most of PayPal to get the most out of your online business or transactions Authors Shannon Sofield of Payloadz.com and PayPal evangelist David Nielsen guide you through the rigors of using and developing with PayPal Whether you're building an ecommerce site using PayPal as a transaction provider or simply trying to pay for an eBay auction without getting burned PayPal Hacks will give you the skinny on this leading global online payment service The collection of tips and tricks in PayPal Hacks shows you how to find or even build the right tools for using PayPal to buy and sell on eBay or as a transaction provider for ecommerce on your own site Written for all PayPal users from those just starting out to those developing sophisticated ecommerce sites this book begins with the basics such as setting up your account then moves quickly into specific tips and tools for buyers sellers and developers With PayPal Hacks you can Learn extra steps to
