Now this indispensable reference volume has been enlarged and completely revised. More than 3 000 new entries have been added to the Hawaiian English section, bringing the total number of entries to almost 30 000 and making it the largest and most complete of any Polynesian dictionary. Other additions and changes in this section include a method of showing stress groups to facilitate pronunciation of Hawaiian words with more than three syllables, indications of parts of speech, current scientific names of plants, use of metric measurements, additional reconstructions, classical origins of loan words, and many added cross references to enhance understanding of the numerous nuances of Hawaiian words.
