[The Official Xbox Magazine](#) ,2008 **Running the Family Firm** Laura Clancy,2021-09-28 In recent decades the global wealth of the rich has

soared to leave huge chasms of wealth inequality This book argues that we cannot talk about inequalities in Britain today without talking about the monarchy Running the Family Firm explores the postwar British monarchy in order to understand its economic political social and cultural functions Although the monarchy is usually positioned as a backward looking archaic institution and an irrelevant anachronism to corporate forms of wealth and power the relationship between monarchy and capitalism is as old as capitalism itself This book frames the monarchy as the gold standard corporation The Firm Using a set of case studies the Queen Prince Charles Prince Harry Kate Middleton and Meghan Markle it contends that The Firm s power is disguised through careful stage management of media representations of the royal family In so doing it extends conventional understandings of what monarchy is and why it matters

Peripheral

Locations in European TV Crime Series Kim Toft Hansen, Valentina Re, 2023-10-17. This book is a comprehensive study of peripheral locations in contemporary European TV crime series. Ambitiously it covers the complete geography of Europe and offers a nuanced image of a changing dynamic and unfinished continent. The chapters include analyses of the practical creative approach to producing crime series in European peripheries and rural areas, evaluating a continent marked by an internal crisis between urban and rural Europe. The study includes readings of crime series such as *Shetland*, *Bitter Daisies*, *Trom Pagan Peak* and *The Border*, but presents such representative cases within broader tendencies on the European TV market including challenges from streaming services, the influence of Nordic Noir and changes within the cognitive geography of Europe. The authors position peripheral European crime series in a complex relationship between universal appeal and local recognisability and offer a comprehensive theoretical approach to the aesthetics of peripherality. Grounded in desktop production studies the book presents an original scholarly approach to analysing European crime series from a continental point of view. Despite local differences the spatio generic orientations scrutinized in the book, *Nordic Noir*, *Mediterranean Noir*, *Country Noir*, *Eastern Noir* and *Brit Noir* show remarkable aesthetic similarities in series from territories otherwise normally unconnected in television production. Consequently television crime series reveal a common tongue and voice for dialogue on a continent in a deepening crisis.
