**Developing and Utilizing Digital Technology in Healthcare for Assessment and Monitoring** Andreas Charalambous, 2021-01-05 This book discusses the current trends in nursing and healthcare in relation to the integration of information technological interventions across the care continuum The use of such interventions in healthcare has increased rapidly in recent years partly due to the rise in technological gadgets applications used in daily routines e.g. actigraphy bracelets smartphones and their unique properties that can be utilized in assessing monitoring and managing a patient's condition remotely This book highlights the areas and the ways in which these interventions can facilitate patient assessment and monitoring and complement conventional treatments in the management of disease induced or treatment induced side effects Furthermore the book describes the development of such interventions and examines how they are designed to promote adherence and acceptance by the user To this end the book also discusses the need for personalizing the

technological experience according to the user's preferences and needs. Drawing on the latest studies in these areas, it not only provides suggestions for undertaking research in this context but also offers insights into how these technologies impact patients' clinical outcomes. Lastly, it addresses the challenges of utilizing such technologies and future directions. Providing multiple perspectives on the topic, the book appeals to a wide range of readers including nurses, clinicians, researchers, technology experts, and students, making them familiar with a broad selection of technological interventions and their application in clinical practice. Moreover, it highlights the factors that need to be considered in the development and testing of future interventions, in particular in nursing, and provides inspiration for future studies.

**Smart Home Automation with IoT** Dipankar Saha, 2024-06-26 Enable smart homes with IoT open source technologies.

**KEY FEATURES**

- Learn to make your home smarter with IoT and AI at a very low cost.
- Live examples along with code and circuit samples which you can readily use.
- Learn scenario-based AI-based home automation techniques.

**DESCRIPTION**

This practical guide, "Smart Home Automation with IoT", shows you how to create a smart home without breaking the bank. Instead of relying on expensive closed systems, you utilize the power of the Internet of Things (IoT) with open source software to design a custom smart home experience that perfectly suits your needs. This book teaches you to create smart home IoT solutions using Raspberry Pi and microcontrollers like Arduino, NodeMCU, ESP8266, and ESP32. You will learn to program these microcontrollers, control relay modules, and use sensors for data collection. The guide covers using OpenHAB, InfluxDB, Mosquitto MQTT Broker, and Grafana with Raspberry Pi, enabling a unified system without coding. It also shows how to connect OpenHAB to Alexa or Google Home for voice commands and automate tasks like lighting. Bonus content includes using Raspberry Pi GPIO pins, AI-based hand gesture and face detection, and Docker containers. By the end of this book, you will be a confident smart home builder equipped with the knowledge and skills to design, implement, and manage a customized system using open source software.

**WHAT YOU WILL LEARN**

- Learn how to implement smart home solutions using open source technologies.
- Learn programming microcontrollers (ESP32, ESP8266, Arduino) using Arduino IDE to integrate with relays and sensors.
- Learn how to install and set up Raspberry Pi for home automation server.
