The author explains and graphically illustrates the different aspects of self denial relating to Christian growth and sanctification. The India and the World Krishna Kumar Singh,2014-01-22 The India and the World Shame and Uncertainty has mainly depicted issues like social political economic poverty illiteracy lack of health facilities insecurity violence corruption indiscriminate armaments environment pollution hunger etc in India and the world nations written in the last two and half years Articles and essays have gone in details about what is happening in India and the globe Exploitation of poor downtrodden and weaker sections of society have been highlighted Important features of the book are indifference of world nations toward burning issues in the respective countries and also issues of concern throughout the globe Compassion peace and nonviolence have become nobodys concern in India and the globe and these issues have been kept on the back burner Notably one thing is very common in the world that is the rich are getting richer and the poor are getting poorer Shamelessly shameful activities have taken the drivers seat Everywhere in all the countries uncertainties prevail it appears that these important issues have little or no priority among elite and political classes ruling

the respective nations of the world General people are helpless and ruling elites are indifferent Almost all nations are threatened with the so called terrorism or militant fanaticism which appear to have adopted militancy because of exploitation and hate campaign against them or their brothers and sisters or their nations in the world World nations have made terrorism extremism and militancy into big hoaxes Instead of finding solutions world nations and their political rulers as well as others are blaming each other for these hoaxes Last but not the least the entire world nations and their people are in the grip of uncertainty and serious threat because of man made miseries in destroying the environment Because of unethical and unprincipled pressure on the earth the earth is itself threatened to bear the burden of man made destruction of the nature and natural wealth Thus the earth is under tremendous pressure of sins of the people of the globe
