The End of Shops Cor Molenaar, 2016-03-23 Shops are facing tough times recession local legislation parking problems competition from the internet and the strong position of suppliers Buying on the Internet 24/7 has become a real alternative to the local shop with its rigid opening hours and limited choice So is there still a future for the traditional retailer What are the latest developments in this environment and how can these be translated into significant business models Cor Molenaar analyses the struggle and the risks to describe the opportunities and potential for the retail trade to turn the tide He looks at the new buying behaviour of consumers the new shopping the evolution of retail how it used to be how it is now and what it has to become and shows what the future for the shop will actually look like Shops need to change to reassess their unique customer appeal and work in new ways with suppliers and customers if they are to survive Online retailing is often seen as the panacea but is that really the case The internet will undergo many changes too Many e-retailers will disappear or end up surviving on the margin of the mainstream Only the most canny suppliers and webshops those that can make best use of the opportunities offered by the Internet will survive

journalism has long been a part of the lifeblood of America but never have the stakes been so high for the people behind it In *Beacons in the Darkness* award winning journalist Dave Hoekstra interviews the people trying to keep the lights on at community newspapers across the country amid buyouts declining revenues fake news and a pandemic This book is not another account of the death of local journalism but rather a celebration of the community ties perseverance and empathy that's demonstrated in community newsrooms from Hillsboro Illinois to Charleston South Carolina to Marfa Texas Hoekstra recounts the sometimes scandalous but always industrious stories of the families who built these newspapers and passed them down through generations Modern publishers and owners describe in their own words their struggles and experiments to stay alive in the digital age not just for their businesses and their families but also for the communities they serve and the neighbors whose stories they tell in their reporting *Beacons in the Darkness* provides an intimate view inside the organizations that still publish photos of the local bowling league and the outlandishly large mushrooms on the edge of town leaving you with a rekindled fondness for your own community paper and a renewed appreciation of what we all stand to lose without one
