Rising,James R. Matthews,Eileen Schoaff,Judith Matthew,2021

Mathematics is an essential component of the educated mind It has two important roles to play as queen of the sciences providing the logical structure that holds science together and as a handmaiden to those sciences carrying out the computations that apply scientific concepts Unfortunately a gulf exists between science and the humanities and our text About Mathematics seeks to bridge that gap to serve humanities students just as humanities texts are offered to inform science students In doing so unlike most math texts we avoid the usual focus on detailed techniques to expose instead some of the important concepts and values of mathematics Forum of Education ,1923 French Exercises, Adapted to Eve and De Baudiss' French Grammar Henry Weston Eve,1884 **Teaching for Flow: Transforming Primary Education for**

**Optimal Learning** Rebecca Meager,2025-12-01 Flow in positive psychology describes a mental state of being fully immersed and energised in the successful performance of a task Teaching for Flow explores a radical transformation of the primary curriculum with a look at adopting a thematic investigatory approach based on the children s interests exploring ways to foster the right conditions for children to enter into the optimal state for learning known as flow or more colloquially as being in the zone Practical activities and classroom resources encourage deeper engagement and motivation among all students regardless of their backgrounds or neurodiversity whilst simultaneously cultivating a love for learning critical thinking and creativity Informed by neuroscience areas covered include learning and development teaching for flow special educational needs SEND outdoor learning and Forest School homework and integrating flow into the curriculum The book suggests a complete overhaul of the current curriculum to place emphasis on a more child centred and engaging learning experience Focusing on curriculum design and lesson planning and assessment the author demonstrates how this inclusive approach can be applied practically and how teachers can have autonomy over curriculum content driven by the interests of their pupils Teaching for Flow is an essential resource for any classroom teacher or school leader looking to develop a more active investigatory and child centred approach to learning in their school that allows children to grow and flourish
