Competing with Disruptive Business Models in Traditional Industries. Conceptualisation of a Strategic Framework Nils Berkemeyer, 2016-05-06 Master s Thesis from the year 2015 in the subject Business economics Business Management Corporate Governance grade 1.0 Cass Business School language English abstract An increasing number of journalistic articles and academic literature deal with the struggle of established companies to fend off the attacks by industry newcomers such as Airbnb Spotify Netflix Google and many others These companies enter traditional industries with innovative business models and compete in a manner which makes it challenging for incumbent firms to understand their novel competition and respond effectively This study introduces a typology of three stages of industry disruption that

classify the newcomer's developmental stage and describe the incumbent's competitive position in terms of competition intensity and remaining time to respond. It is demonstrated how incumbents may conduct their strategic reasoning along these stages to arrive at a strategic goal and evaluate possible counter measures.

Then, having presented and analysed the results of the study, the findings shall be discussed until finally some concluding remarks are made.

OECD Internet Economy Outlook, 2012 Bloomberg Businessweek, 2010-04 StreamPunks Robert Kyncl, Maany Peyvan, 2017-09-05

An entertainment and tech insider YouTube's chief business officer delivers the first detailed account of the rise of YouTube, the creative minds who have capitalized on it to become pop culture stars, and how streaming video is revolutionizing the media world. In the past ten years, the internet video platform YouTube has changed media and entertainment as profoundly as the invention of film, radio, and television did more than six decades earlier. StreamPunks is a firsthand account of this upstart company, examining how it evolved and where it will take us next. Sharing behind-the-scenes stories of YouTube's most influential stars, StreamPunks like Tyler Oakley, Lilly Singh, and Casey Neistat, and the dealmakers brokering the future of entertainment like Scooter Braun and Shane Smith, Robert Kyncl uses his experiences at three of the most innovative media companies, HBO, Netflix, and YouTube, to tell the story of streaming video and this modern pop culture juggernaut. Collaborating with Google speechwriter Maany Peyvan, Kyncl explains how the new rules of entertainment are being written and how and why the media landscape is radically changing while giving aspiring StreamPunks some necessary advice to launch their own new media careers. Kyncl persuasively argues that despite concerns about technology impoverishing artists or undermining artistic quality, the new media revolution is actually fueling a creative boom and leading to more compelling, diverse, and immersive content. Enlightening, surprising, and thoroughly entertaining, StreamPunks is a
