The supplier will be notified of the audit results within two weeks of the audit date. Suppliers are required to notify Supreme of certificates being revoked or placed on probation. Suppliers shall notify Supreme Purchasing if they plan on changing registrars.

Any modifications to these requirements must be approved in writing by Supplier Quality. Sample submissions are required for new products and before changes are made to existing products or processes.
- 3.3 Preliminary Process Capability Studies are required for designated Safety, Key, Critical, or Significant Characteristics that can be measured using variable data. The number of parts sampled, methods, & capability requirements are as defined in the current AIAG PPAP Manual, unless otherwise specified in writing.
- 3.4 Material &/or performance tests are expected whenever chemical, physical, metallurgical, or performance requirements are specified on the engineering drawing or purchase order.
