Web Campaigning Acting With Technology:

Web Campaigning Kirsten A. Foot, Steven M. Schneider, 2006 Foot and Schneider examine the evolution of political campaign web practices

Political Campaigning on the Web Sigrid Baringhorst, Veronika Kneip, Johanna Niesyto, 2017-11-15 Drawing upon a common conceptual framework of political webcampaigning the book offers theoretical reflections on Internet based campaign politics It provides a comparative overview on the use of the Internet as a campaigning instrument by diverse intermediary political actors Taking the empirical findings of Internet appropriations into consideration the book discusses the impact of political webcampaigning on transnational democracy and the transformation of public spheres

Appropriating Technology Pierre Tchounikine, 2025-10-28 How we use digital technologies and make them our own Appropriation is the process by which we turn digital technologies into instruments for our own use Since we do not use technologies but rather our appropriations of them understanding why and how these appropriations develop is important and useful for both users and for designers However appropriation is an underexplored aspect of human computer interaction In Appropriating Technology Pierre Tchounikine explains that appropriation is constitutive of how we actually use things in practice and is different in nature from the initial process of learning to use a technology He provides an analysis of the phenomena at play and explains how the way we develop we evolve we learn is key how our human high level needs also play an important though often unconscious role how the current adaptation means offered by most technologies give us some degree of freedom to align technologies to our needs and desires although they are far from fully satisfactory and how these design aspects may be improved

Technology Choices Diane E. Bailey, Paul M. Leonardi, 2015-01-23 An analysis of the occupational factors that shape the technology choices made by people who perform the same type of work Why do people who perform largely the same type of work make different technology choices in the workplace An automotive design engineer working in India for example finds advanced information and communication technologies essential allowing him to work with far flung colleagues a structural engineer in California relies more on paper based technologies for her everyday work and a software engineer in Silicon Valley operates on multiple digital levels simultaneously all day continuing after hours on a company supplied home computer and network connection In Technology Choices Diane Bailey and Paul Leonardi argue that occupational factors rather than personal preference or purely technological concerns strongly shape workers technology choices Drawing on extensive field work a decade s worth of observations and interviews in seven engineering firms in eight countries Bailey and Leonardi challenge the traditional views of technology choices technological determinism and social constructivism Their innovative occupational perspective allows them to explore how external forces shape ideas beliefs and norms in ways that steer individuals to particular technology choices albeit in somewhat predictable and generalizable ways They examine three relationships at the heart of technology choices human to technology technology to technology and human to human An occupational perspective they argue helps us not only to understand past technology

choices but also to predict future ones Computational Methods for Communication Science Wouter van Atteveldt, Tai-Quan Peng, 2021-03-29 Computational Methods for Communication Science showcases the use of innovative computational methods in the study of communication This book discusses the validity of using big data in communication science and showcases a number of new methods and applications in the fields of text and network analysis Computational methods have the potential to greatly enhance the scientific study of communication because they allow us to move towards collaborative large N studies of actual behavior in its social context This requires us to develop new skills and infrastructure and meet the challenges of open valid reliable and ethical big data research This volume brings together a number of leading scholars in this emerging field contributing to the increasing development and adaptation of computational methods in communication science The chapters in this book were originally published as a special issue of the journal Communication Methods and Measures **Elgar Encyclopedia of Technology and Politics** Ceron, Andrea, 2022-10-11 The Elgar Encyclopedia of Technology and Politics is a landmark resource that offers a comprehensive overview of the ways in which technological development is reshaping politics Providing an unparalleled starting point for research it addresses all the major contemporary aspects of the field comprising entries written by over 90 scholars from 33 different countries on 5 continents Routledge Handbook of Internet Politics Andrew Chadwick, Philip N.
