Surface Force Training Manual 2012:

Overseas Basing of U.S. Military Forces Michael J. Lostumbo, Michael J. McNerney, Eric Peltz, Derek Eaton, David R. Frelinger, 2013-04-15 This independent assessment is a comprehensive study of the strategic benefits risks and costs of U S military presence overseas The report provides policymakers a way to evaluate the range of strategic benefits and costs that follow from revising the U S overseas military presence by characterizing how this presence contributes to assurance deterrence responsiveness and security cooperation goals

Amphibious Shipping Shortfalls Maren Leed, 2014-09-18 In this report the CSIS Harold Brown Chair in Defense Policy Studies analyzes the types of capabilities necessary across the range of military operations and compares that with the characteristics of amphibious ships as well as those in the Combat Logistics Fleet Maritime Prepositioning Force and others Resulting shortfalls in key capability areas suggest some degree of risk The study then describes how amenable those risks may be to mitigation and some of the associated implications This report provides a framework for policymakers to understand those areas in which alternative platforms might be most useful where risks associated with their employment are most significant and how readily broadening platforms beyond the uses for which they were designed might be accomplished
