## Welcome My Country Lauren Slater:

**Welcome to My Country** Lauren Slater, 2012-11-07 The world of the schizophrenic the depressed the suicidal can seem a foreign frightening place Now a brilliant writer psychologist takes readers on a mesmerizing journey into this enigmatic world As readers interact through Slater with patients Lenny Moxi Oscar and Marie they come to understand more about the human mind and spirit First serial to Harper's **Unfitting Stories** Valerie Raoul, 2007-03-30 Unfitting Stories Narrative Approaches to Disease Disability and Trauma illustrates how stories about ill health and suffering have been produced and received from a variety of perspectives Bringing together the work of Canadian researchers health professionals and people with lived experiences of disease disability or trauma it addresses central issues about authority in medical and personal narratives and the value of cross or interdisciplinary research in understanding such experiences The book considers the aesthetic dimensions of health related stories with literary readings that look at how personal accounts of disease disability and trauma are crafted by writers and filmmakers into published works Topics range from psychiatric hospitalization and aestheticizing cancer to father daughter incest in film The collection also deals with the therapeutic or transformative effect of stories with essays about men sport and spinal cord injury narrative teaching at L'Arche a faith based network of communities inclusive of people with developmental disabilities and the construction of a schizophrenic identity A final section examines the polemical functions of narrative directing attention to the professional and political contexts within which stories are constructed and exchanged Topics include ableist limits on self narration drug addiction and the disease model and narratives of trauma and Aboriginal post secondary students Unfitting Stories is essential reading for researchers using narrative methods or materials for teachers students and professionals working in the field of health services and for concerned consumers of the health care system It deals with practical problems relevant to policy makers as well as theoretical issues of interest to specialists in bioethics gender analysis and narrative theory Read the chapter Social Trauma and Serial Autobiography Healing and Beyond by Bina Freiwald on the Concordia University Library Spectrum Research Repository website **Mad Muse** Jeffrey Berman, 2019-09-03 Many of the well respected scholarly studies of autobiographical writing have little or nothing to say about mental illness This book uncovers the mysterious relationship between mood disorders and creativity through the lives of seven writers demonstrating how mental illness is sometimes the driving force behind creativity **Psychiatry** Thomas Szasz, 2008-09-08 For more than half a century Thomas Szasz has devoted much of his career to a radical critique of psychiatry His latest work Psychiatry The Science of Lies is a culmination of his life's work to portray the integral role of deception in the history and practice of psychiatry Szasz argues that the diagnosis and treatment of mental illness stands in the same relationship to the diagnosis and treatment of bodily illness that the forgery of a painting does to the original masterpiece Art historians and the legal system seek to distinguish forgeries from originals Those concerned with medicine on the other hand physicians patients politicians health insurance providers

and legal professionals take the opposite stance when faced with the challenge of distinguishing everyday problems in living from bodily diseases systematically authenticating nondiseases as diseases The boundary between disease and nondisease genuine and imitation truth and falsehood thus becomes arbitrary and uncertain There is neither glory nor profit in correctly demarcating what counts as medical illness and medical healing from what does not Individuals and families wishing to protect themselves from medically and politically authenticated charlatanry are left to their own intellectual and moral resources to make critical decisions about human dilemmas miscategorized as mental diseases and about medicalized responses misidentified as psychiatric treatments Delivering his sophisticated analysis in lucid prose and with a sharp wit Szasz continues to engage and challenge readers of all backgrounds *Disability and/in Prose* Brenda Jo

Brueggemann,Marian E. Lupo,2013-09-13 Through a series of critical essays this book concerns the relationships and possibilities in and between prose and disability It covers a diverse range from the role of the disability memoir the effect of disablement on soldiers phantom limb syndrome and the suspicion of faking it that sometimes surrounds **The Fine Art of**

the seizures the family embarrassments even as it explores a sensitive child's illness as both metaphor and a means of attention getting a human being's susceptibility to malady and to storytelling as an act of healing and as part of the quest for love. This mesmerizing memoir openly questions the reliability of memoir itself the trickiness of the mind in perceiving reality the slippery nature of illness and diagnosis the shifting perceptions and images of who we are and what for God's sake is the matter with us. In *Lying* Lauren Slater forces us to redraw the boundary between what we know as fact and what we believe we create as fiction. Here a young woman discovers not only what plagues her but also what heals her the birth of sensuality her creativity as an artist in a book that reaffirms how a fine writer can reveal what is common to us all in the course of telling her own unique story.
