

Get started. The first time you open Activity on Apple Watch, swipe left to read the Move, Exercise, and Stand descriptions, then tap Get Started. Enter the required information by tapping Sex, Age, Weight, and Height, then turn the Digital Crown to set and tap Continue. Finally, tap Start Moving.

Note: You can also enter your birthdate, sex, height, and weight in the Apple Watch app on iPhone. In the Apple Watch app, tap My Watch, then tap Health.

Check your progress. Swipe up on the watch face, then swipe to the Activity glance at any time to see how you're doing. Tap the glance to open the Activity app and swipe to see the individual activities. The Move ring shows how many active calories you've burned. The Exercise ring shows how many minutes of brisk activity you've done. The Stand ring shows how many times in the day you've stood for at least one minute per hour. Swipe up on an activity or turn the Digital Crown to see your progress as a graph.

An overlapping ring means you've exceeded your goal. Watch for achievement awards, if you have that feature turned on.
