*Disability, Media, and Representations* Jacob Johanssen, Diana Garrisi, 2020-02-27. Bringing together scholars from around the world to research the intersection between media and disability, this edited collection aims to offer an interdisciplinary exploration and critique of print, broadcast, and online representations of physical and mental impairments. Drawing on a wide range of case studies addressing how people can be othered in contemporary media, the chapters focus on analyses of hateful discourses about disability on Reddit news, coverage of disability and education media access of individuals with disabilities, the logic of memes and brain tumour on Twitter, celebrity and Down Syndrome on Instagram, disability in TV drama, the metaphor of disability for the nation, as well as an autoethnography of treatment of breast cancer. Providing a much-needed global perspective, *Disability Media and Representations* examines the relationship between self representation and representations in either reinforcing or debunking myths around disability and ways in which academic discourse can be differently articulated to study the relationship between media and disability. This book will be of interest to students and researchers of disability studies and media studies, as well as activists and readers engaged in debates on diversity, inclusivity, and the media.

**Badass Women and Hashtagged Zombies** Allison Christina Budaj, 2024-10-16. In its evolution from graphic novels to a sprawling multimedia universe, the impact of *The Walking Dead* cannot be understated. Beyond its narrative roots, a passionate community of viewers use social media to delve deeper into the anxieties and social issues portrayed within the narrative universe. This book uses fan discussions on social media platforms to analyze the series' appeal and its ability to provoke discussions about survival, societal norms, and gender roles, leading to a significant online presence and discussions about the characters' actions and societal issues portrayed. Viewers perceive and champion unconventional actions, especially as the leading female characters defy traditional gender roles. With the introduction of more diversity, the progression of characters within *The Walking Dead* and its spinoffs continues to disrupt stereotypes. Focusing on analyzing audience engagement with AMC's *The Walking Dead* and its spinoffs through social media, this book highlights how fan-based interactions in creating a participatory culture around the series highlight societal issues presented, offering interpretations, theories, and personal connections. By integrating fan commentary into the analysis, fans act as active collaborators in understanding the impact of *The Walking Dead* universe as a meaningful popular culture artifact.

**Rereading Musicians and Their Audiences** Tom Attah, Kirsty

Fairclough, Christian Lloyd, 2025-06-12 Using a radical and inclusive definition of the genre this collection explores musicians' autobiographies as articulated in print on stage and through various expressive media as a dynamic factor in contemporary culture. Popular musicians' autobiographies are one of the most important ways that stars create, negotiate, and perpetuate the realities and myths of their lived experiences for fans. Autobiographical creations such as Bruce Springsteen's book *Born to Run*, Kendrick Lamar's lyrics, ABBA's virtual *Voyage* show, and the reimaginings of Lennon and McCartney's childhood homes have been both critically acclaimed and lucrative whilst delivering for many fans an apparent insider's understanding of musicians whose work they are invested in. Yet such narratives have many other functions beyond thrilling their consumers with a sense of intimacy. The pop music autobiographies discussed here variously attempt to rewrite social history to redress gender or racial stereotypes, to question received models of fame to validate new genres and scenes, to explore complex subjectivities to justify or atone for transgressive behaviour, and to critique the music industry.

**A New Leaf** Alyson Martin, Nushin Rashidian, 2015-02-03 Two award winning journalists offer a cogent, well sourced and ambitious analysis of the slow decline of cannabis prohibition in the United States. Kirkus Reviews In November 2012 voters in Colorado and Washington passed landmark measures to legalize the production and sale of cannabis for social use, a first in the United States and the world. Once vilified as a gateway drug, cannabis is now legal for medical use in eighteen states and Washington DC. Yet the federal government refuses to acknowledge these broader societal shifts. 49.5 percent of all drug related arrests involve the sale, manufacture, or possession of cannabis. In the first book to explore the new landscape of cannabis in the United States, investigative journalists Alyson Martin and Nushin Rashidian demonstrate how recent cultural and legal developments tie into cannabis's complex history and thorny politics. Reporting from nearly every state with a medical cannabis law, Martin and Rashidian interview patients, growers, doctors, entrepreneurs, politicians, activists, and regulators. *A New Leaf* moves from the

federal cannabis farm at the University of Mississippi to the headquarters of the ACLU to Oregon's World Famous Cannabis Caf The result is a lucid account of how cannabis legalization is changing the lives of millions of Americans and easing the burden of the war on drugs both domestically and internationally
