Tame Impala's Currents Alister Newstead, 2025-12-11 Studies Tame Impala's psychedelic album Currents (2015) as both an example of a cultural shift in music production and consumption and a project that cemented its creator Kevin Parker as one of Australian music's most unlikely success stories and influential exports.

Mood Machine Liz Pelly, 2025-01-07 NATIONAL BESTSELLER A New Yorker, GQ, The Daily Telegraph, London and Library Journal Best Book of 2025. A 2025 Washington Post Notable Nonfiction. An NPR Books We Love Most pick. Winner of a Certificate of Merit from the 2025 ARSC Awards for Excellence. An unsparing investigation into Spotify's origins and influence on music, weaving unprecedented reporting with incisive cultural criticism illuminating how streaming is reshaping music for listeners and artists alike. Drawing on over one hundred interviews with industry insiders, former Spotify employees, and musicians, *Mood Machine* takes us to the inner workings of today's highly consolidated record business, showing what has changed as music has become increasingly playlisted, personalized, and autoplayed. Building on her years of wide-ranging reporting on streaming music, journalist Liz Pelly details the consequences of the Spotify model by examining both sides of what the company calls its two-sided marketplace: the listeners who pay with their dollars and data, and the musicians who provide the material powering it all. The music business is notoriously opaque, but here Pelly lifts the veil on major stories like streaming services filling popular playlists with low-cost stock music and the rise of new payola-like practices. For all of the inequities exacerbated by streaming, Pelly also finds hope in chronicling the artist-led fight for better models, pointing toward what must be done collectively to revalue music and create sustainable systems. A timely exploration of a company that has become synonymous with music, *Mood Machine* will change the way you think about and listen to music.

El poder de la proximidad (Serie ENDEBATE) Carlos Moreno,2026-01-08 El manifiesto de uno de los urbanistas más influyentes del mundo para humanizar y hacer más habitables las ciudades El poder de la proximidad invita a repensar la vida urbana desde una mirada más humana y transformadora Carlos Moreno propone una auténtica revolución urbana: habitar la ciudad no solo alojarse en ella redescubriendo el valor de la cercanía. Defiende una ciudad compacta, accesible y vivible donde la proximidad mejore la calidad de vida y fortalezca los lazos sociales, culturales y ambientales. La colección Endebate es el hogar de aquellos textos breves que presentan una opinión que defiende una actitud o cuentan una historia, pero son más un aperitivo que un banquete: estimulan la conversación más que saciarla e iniciar un festín que no clausuran. Como los mejores bocados entran por los ojos y dejan un largo poso en el paladar.

La crítica ha dicho: En un mundo donde las ciudades crecen sin pausa y el tiempo de las personas se disuelve entre desplazamientos y distancias, Moreno propone una revolución silenciosa pero profunda: reorganizar la vida urbana en torno a la proximidad, la equidad y el bienestar cotidiano.

Unián de Ciudades Capitales Iberoamericanas **Should Spotify Bring Voice Assist Technology to the Smart Speaker Market?** Christopher Diller, Stewart Pursey, Richard Gentry, 2022

In 2018, Spotify started selling its shares publicly on the New York Stock Exchange. The Swedish-based startup, which launched in 2008, was on its way to becoming the largest music streaming platform in the world. At the time it was going public, Spotify was used in 61 countries, had 159 million active users, and hosted a music library of 35 million songs. Over the last decade, Spotify has focused on increasing its music library, available to stream and differentiating its brand from competitors by adding music videos, live clips, and podcasts to its service. It has created a series of personalized playlists based on users' preferences and song history. It has also begun hosting live events. All of these offerings have added to its popularity and brand loyalty from its streamers. However, one segment that Spotify has not tapped into is an area that its competitors already dominate: the voice assist speaker system market. Reports have shown that Spotify is looking to add voice assist capabilities to its platform and, in turn, considering the development of a proprietary smart speaker device. By 2017, the voice assist speaker market had become a global phenomenon valued at USD 4.4 billion and is projected to reach USD 23.3 billion by 2025. Spotify has been focused on maintaining its lead in music streaming, but now smart speaker manufacturing companies will be able to disintermediate Spotify as a non-essential application, breaking its connection to customers. But with the current success of Spotify's music streaming platform and its competitors focused on the smart speaker segment that Spotify has no control over, Spotify must decide whether or not to follow the first movers and enter the voice assist speaker market.
