Smith, 2021 By tracing the political and ecological consequences of charting the Amazon River basin in narrative fiction Mapping the Amazon examines how widely read twentieth century novels by Jos Eustasio Rivera R mulo Gallegos Mario Vargas Llosa C sar Calvo M rcio Souza and M rio de Andrade have both represented and shaped the region long after publication

Fate, Fortune, and Mysticism in the Peruvian Amazon Marlene Dobkin de Rios, 2011-01-27 A medical anthropologist s account of fortune telling and management of one s own destiny in Peru Explains the fortune telling naipes cards and how Amazonian shamans use them to diagnose clients ills Looks at the Sacred Mystical Order of Septrionism and its techniques for managing destiny While studying Amazonian shamans who use ayahuasca and Peruvian coastal healers who use mescaline cactus to treat psychological illness Marlene Dobkin de Rios learned about the naipes cards fortune telling cards similar to the tarot used as part of the healers method of diagnosis Immersing herself in their culture she began telling fortunes with the naipes cards and was surprised by the intimacy it induced in the native people she was trying to study as well as the profoundly accurate results she encountered Finding

herself pulled further and further into Peruvian culture in 1977 Dobkin de Rios was initiated into the sacred mystical order of Septrionismo which emphasizes specific techniques such as meditation ritual and reflection to manage one's future rather than depending solely on fate and fortune Explaining how to use the naipes cards as well as examining the practices of the Septrionic Order Dobkin de Rios explores her experiences with both traditions through the lens of her anthropological and psychological training describing how these diverse encounters opened her mind to the powers of divination as well as taught her the means of directing her own destiny

Moundbuilders of the Amazon Anna Curtenius Roosevelt, 1991

Moundbuilders of the Amazon shows that sophisticated archaeological bioarchaeological and geophysical techniques of remote sensing are fully applicable to tropical sites Additionally the comprehensive use of such techniques by all archaeologists doing fieldwork anywhere could revolutionize archaeology allowing archaeologists to look inside sites rather than simply excavate them Using a variety of remote sensing techniques Roosevelt documents the existence of a major moundbuilding culture possessing monumental architecture and a rich artistic tradition on the lowland tropical floodplain of Marajo Island at the mouth of the Amazon River in Brazil from about 400 A D to about 1 300 A D Marajo Island at the mouth of the Amazon River is about the same size as Switzerland or Belgium A well developed civilization existed there from about 400 A D to 1 300 A D comparable in many ways to the Inca civilization to the west or to the Aztec and Maya cultures to the north or in some interesting ways to the Pharonic cultures which developed at the mouth of the Nile Because this civilization had no stone at its disposal it expressed its monumental architecture in packed dirt which washed back into the alluvial floodplain long ago effectively preventing archaeological discovery until the recent development of sophisticated techniques of remote sensing and reconstruction

Key Features Reports on the most extensive stratigraphic excavations ever of an ancient Amazonian civilization adapted to a floodplain environment Introduces the first use of geophysics for archaeology in non specialized language Illustrates for the first time the elaborate art of a complex society that was indigenous to the tropical lowlands Describes monumental sites rich polychrome pottery and the first extensive biological remains ever recovered in an Amazonian site Proves that sophisticated archaeological bioarchaeological and geophysical techniques of remote sensing are fully applicable to tropical sites Shows that the comprehensive use of such methods could revolutionize archaeology by allowing archaeologists to look inside sites rather than simply excavate them Provides examples which prove that the theories about the limitations of the tropical environment for cultural evolution are simply untrue and were based on
