**COMMUNICATION ENGINEERING** Dr. Arimanda Vara Prasad Reddy, Dr. Arimanda Vijaya Sarada Reddy, Sri Arimanda Siddharth Reddy, Dr. J B V Subrahmanyam, Dr. Y. David Solomon Raju, It is with great pride and enthusiasm that we present the proceedings of the First International Conference on Computer Science and Communication Engineering organized by Holy Mary Institute of Technology and Science Hyderabad This conference marks a significant milestone in our commitment to advancing innovation research and collaboration in the ever evolving domains of computer science and communication technologies In an era where digital transformation is rapidly redefining the global landscape fields such as Artificial Intelligence AI and Machine Learning ML have emerged as powerful drivers of sustainable progress From smart energy systems and intelligent healthcare solutions to advancements in agriculture and environmental conservation these

technologies offer immense potential to address the critical challenges of our time. This conference has provided a vibrant platform for researchers, academicians, industry leaders, and students from across the globe to come together, share knowledge, and explore novel applications of AI, ML, and communication engineering aimed at sustainable development. The overwhelming response and the diversity of contributions reflect the growing significance and global interest in these areas. The range of topics featured in this volume showcases not only the depth of academic and practical research but also the spirit of innovation and collaboration that underpins this conference. Each paper represents a step forward in our shared pursuit of technological solutions for a better, more sustainable world. We extend our sincere gratitude to all the keynote speakers, session chairs, reviewers, authors, and participants for their valuable contributions. A special word of thanks goes to the organizing committee, sponsors, and dedicated volunteers whose tireless efforts have made this event a resounding success. As you explore the proceedings, we hope that the ideas and collaborations born from this conference will continue to inspire impactful research and foster long-term partnerships for a future that is both technologically advanced and environmentally responsible.

**Organizing Committee ICCSCE 2025**      *Classroom Connect*, 1997      **Data Science and Emerging Technologies** Yap Bee Wah, Michael W. Berry, Azlinah Mohamed, Dhiya Al-Jumeily, 2023-03-31. The book presents selected papers from International Conference on Data Science and Emerging Technologies DaSET 2022 held online at UNITAR International University Malaysia during December 20-21, 2022. This book aims to present current research and applications of data science and emerging technologies. The deployment of data science and emerging technology contributes to the achievement of the Sustainable Development Goals for social inclusion, environmental sustainability, and economic prosperity. Data science and emerging technologies such as artificial intelligence and blockchain are useful for various domains such as marketing, health care, finance, banking, environmental, and agriculture. An important grand challenge in data science is to determine how developments in computational and social behavioral sciences can be combined to improve well-being, emergency response, sustainability, and civic engagement in a well-informed data-driven society. The topics of this book include but are not limited to artificial intelligence, big data technology, machine and deep learning, data mining, optimization algorithms, blockchain, Internet of Things, IoT, cloud computing, computer vision, cybersecurity, augmented and virtual reality, cryptography, and statistical learning.

**Connect**, 2004      **Science Activities Using the World Wide Web** Kathy Sage, 1999. Get kids wired up and fired up with this step-by-step guide to using the Internet to study six science topics: flight, germs, simple machines, sharks, the digestive system, and weather. Each topic includes Web search directions, Web addresses, and model lessons for the whole class, small groups, or individuals. Reproducible and clear directions for both teachers and students make this book a practical tool to blend teaching with technology.
