Fan Podcasts Anne Korfmacher, 2024-06-28 Starting from the observation of the ubiquity of fan podcasts engaging in media commentary this book explores three fan podcast genres in which commentary manifests as a structuring form: rewatch and reread podcasts, recap podcasts, and review podcasts. The author conducts a formalist genre analysis of these podcasts, close reading nine case studies to describe how the three genres function and how different fan labour manifests in podcasting. Each case study teases out the themes, style, and formal constellations of the three podcast genres, showing how different fans activate the affordances of podcasting and commentary and reveals the distinct generic functions of the three podcast genres. This book will be of significant interest to scholars and students in podcast studies, fan studies, cultural studies, and literary studies who are interested in fan podcasts, podcast genre analysis, and ways of close reading podcasts as texts.

Gestures of Concern Chris Ingraham, 2020-07-27 In *Gestures of Concern*, Chris Ingraham shows that while gestures such as sending a Get Well card may not be instrumentally effective, they do exert an intrinsically affective force on a field of social relations. From liking, sharing, posting, or swiping to watching a TED Talk or wearing an I Voted sticker, such gestures operate as much through affective registers as they do through overt symbolic action. Ingraham demonstrates that gestures of concern are central to establishing the necessary conditions for larger social or political change because they give the everyday aesthetic and rhetorical practices of public life the capacity to attain some socially legible momentum. Rather than supporting the notion that vociferous public communication is the best means for political and social change, Ingraham advances the idea that concerned gestures can help to build the affective communities that orient us to one another with an imaginable future in mind. Ultimately, he shows how acts that many may consider trivial or banal are integral to establishing those background conditions capable of fostering more inclusive social or political change.

Value-creation in Middle Market Private Equity John A. Lanier, 2016-02-17 *Value creation in Middle Market Private Equity* by John A. Lanier holistically examines the ecosystem relationships between middle market private equity firms and their portfolio companies. Small business is the job creating engine in the US economy and consequently is a prime target market for private equity investment. Indeed, private equity backs over six of each 100 private sector jobs. Both the small businesses in which private equity firms invest and the private equity firms making the investments face inter- and intra-company fiduciary leadership challenges while implementing formulated strategy. The architecture of each private equity firm-portfolio company relationship must be uniquely crafted to capitalize on the projected return on investment that is memorialized in the investment thesis. Given the leveraged capital structure of portfolio companies, the cost of a misstep is problematic. Individual private equity professionals are typically members of multiple investment teams for the firm. Not only may each investment team have its own unique leadership style, but its diverse members have to assimilate styles for each team in which they participate relative to a specific portfolio company. Acquisitions and their subsequent integrations add exponential complexity.

for both private equity investment and portfolio company leadership teams indeed cultural integration ranks among the most chronic acquisition obstacles Accordingly the stakeholders of private equity transactions do well to embrace leadership best practices in applying value creation toolbox best practices The perspectives of both the private equity investment team and the portfolio company leadership team are within the scope of these chapters [Rights of the Child, Mothers and Sentencing](#) Alice Macharia,2021-02-22 This book draws international attention to the autonomy of the child accompanying incarcerated mothers and those they leave behind in the community despite being dependent on the convicted caregiver Adopting a child rights perspective the study explores how courts could go about sentencing mothers of young children for the commission of criminal offences whilst protecting the rights of the child as envisaged under the United Nations Convention on the Rights of the Child UNCRC Drawing on the author s experience as a sentencer in the Kenyan court and with reference to domestic regional and international law the book argues that children s rights are presently left in abeyance when their mothers are sentenced to imprisonment and that greater efforts should be made to recognize and give effect to the child s existence as an autonomous equal holder of human rights despite being dependent on the convicted caregiver It explores the application of precedence as well as the court s discretion in view of the dependent child and concludes that policy reform in this respect calls for change in attitude and approach on women and children s issues Observing that internationally most women imprisoned with their children fall beneath the custodial threshold set by law the research examines how current sentencing practices could be reformed and suggests harnessing the Power of Mercy Committee the Sentencing Guidelines and progressive practices from developed countries in protecting the child s rights by imposing non custodial sentences for the offending mothers It is concluded that in all jurisdictions strict accountability for the dependent child should be situated with the judiciary and that the same should be pronounced as a mandatory legal requirement The book will be a valuable resource for academic researchers and policy makers working in the area of international children s rights law and criminal law [ACT Prep 2026/2027 For Dummies](#) Lisa Zimmer Hatch,Scott A.
