**Sacred Consumption**  
Peter Mundey, 2023-04-04  
How does consumerism function as a quasi religion in America and how does the Christian faith interact with the consumerist pseudo faith? Answering these questions is the focus of *Sacred Consumption: The Religions of Christianity and Consumerism in America*. Peter Mundey draws on both quantitative and qualitative data to explore how habitually consuming nonessentials is sacred in American culture and how the Christian sacred interacts with such consumption. Mundey unpacks the history of American consumerism and the creeds of consumerism. Christian creeds related to both consuming and financial giving are also discussed, illuminating the ways that Christianity can fuel, resist, and passively ignore consumerism. Mundey's emphasis throughout is to enumerate the underlying cultural ideology derived from both Christianity and consumerism that partially makes and shapes American consumers.

**Mediating Plurality**  
Morten Bay, 2025-03-24  
In this book, Morten Bay provocatively questions whether or not truth in media is lost and, furthermore, whether humans can perceive objective reality or as many neuroscientists and philosophers now believe, we all perceive different realities constructed through predictive processing. As affective polarization continues to render American democracy increasingly dysfunctional, a situation largely inflamed by media, Bay calls for a cultural shift in which these two conditions are reconciled. Drawing on political philosophy, this book presents an ethics that holds up responsible media conduct as a democratic duty of all media users. This shift in ethical frameworks carries with it different implications for a variety of audiences, including individuals, media platforms, and corporations, media practitioners, and journalists, media studies scholars, and society more broadly. Each stakeholder involved will need to reconsider their approach to media and reality. Individuals must accept that everyone's perceptions of reality are different, platforms and corporations must cease irresponsible practices that dissociate realities and stoke division, practitioners and journalists must develop more nuanced epistemologies beyond The Truth, and scholars must redefine media by foregrounding epistemology, pluralism, and physicality in media theory. Collectively, Bay argues, we must come to a new understanding of reality as a plurality of realities, a plurality.
