The Shopping Revolution, Updated and Expanded Edition Barbara E. Kahn, 2021-04-30 The retail industry was in the midst of unparalleled disruption Then came COVID 19 In an updated and expanded edition of *The Shopping Revolution* Wharton professor Barbara Kahn examines the companies that have been most successful during a tsunami of change in the industry She offers fresh insights into what we can learn from them *Why America Didn't Become Great Again* Robert Chernomas, Ian Hudson, 2025-04-22 Examining the conditions that not only blocked attempts to make America great again but also actively made the country worse *Why America Didn't Become Great Again* identifies those organizations institutions politicians and prominent characters in the forefront of the economic and social policies ultimately asking who is responsible The period from the late 1970s to 2020s became the best of times for America's corporate class As profits grew along with the wealth and income that they delivered for their stockholders and management their goal was to set new rules for the rest of us to live by with a clear class agenda Institutions have been organized government policies reoriented and economists journalists and politicians recruited funded and promoted And so it has not been the best of times for working families as inequality stagnant wages debt and ever longer working hours became their fate This book critically analyzes those who very deliberately set out to implement policies enacted at the state and federal level in order to redistribute wealth and income upwards and change the balance of power in the United States in response to the class gender and racial challenges that resulted in compressed income and wealth differentials before the 1980s An essential book on contemporary inequality in America *Why America Didn't Become Great Again* surveys the past near half century that resulted in American economic instability and inequality environmental crisis a crumbling physical and harmful social infrastructure among the very worst health outcomes child poverty food insecurity and social mobility of the industrialized countries culminating in a Trump regime and the road to further ruin *Sweatshop Capital* Beth Robinson, 2025-10-03 Beth Robinson examines the sweatshop labor practices that produced American consumer products from the late nineteenth through early twenty first centuries as well as the labor and social movements that contested them **Aspects of Digital Change** Adam Hoare, 2019-09-12 Digital change is a notoriously difficult endeavour to undertake The public sector has engaged in many projects to embrace digitalisation These include projects in health and social care the benefits system EU farm subsidy payments and child support payments to name a few Project timescales and budgets are over run and aspects of the projects are sometimes abandoned with many millions of pounds sunk In the private sector companies such as Amazon use test and learn approaches to build technology platforms that deliver real person centred services What is the difference between the Amazon approach and the failures we see in the use of public money This book addresses this question beginning with examples of the development of technology in a range of industry sectors It tells the story of what was learned over eight years in developing and selling digital platform technology into health and social care By capturing the understanding gained from the

experience the book will enable the reader to become aware of why eCommerce and other digital platforms are flourishing in our private lives whilst our experience of health and care remains rooted in the distant past
