Good yet naive men routinely wreck their lives because they stick their dick in a blender having sex with the wrong kinds of women STDs unplanned pregnancies false accusations mental health headcases and divorce make chasing skirts a dangerous game While lesser men retreat from the pursuit of women into the pixel powered pleasure world you have faith that your hunt for a virtuous woman will be fruitful You can't take a time machine back to a more decent age to find a marriageable woman You're not ready to give up on your genetic purpose and start banging sex robots but you're tired of the transient meaningless flings with mediocre women You're likely underestimating just how risky sex a relationship or marriage is with the modern woman But you're also underestimating just how rewarding it is to win the commitment of a nice girl a truly feminine woman not at war with the natural order and intertwine your essence with hers Don't Stick Your Dick in a Blender is an irreverent politically incorrect exposition of the state of dating in the current year And a playbook of counter intuitive approaches advanced social dynamics lifehacks along with filtering strategies for avoiding the time wasters and inglorious skanks How to meet a nice girl Meeting a wife material woman Yes it's still possible Dating post COVID 19 The global pandemic plandemic has changed the game you must adapt The truth about marrying an exotic foreign woman Is it for you Online dating Navigating the digital minefield of fakers flakes liars and scams Mindset demystified Deprogramming the mainstream and counter culture mindsets that cost you love Dating abroad How to do it without getting royally screwed Avoiding the friend zone Advanced persuasion and sexual signaling methods Seducing a virgin Why this really matters and how to do it Eliciting yielding Yin energy Inspiring a woman to adopt your values Cultivating her devotion Get laid like a lover and get respect like a patriarchal provider Tantric sex hacks Up your bedroom skills with an arsenal of holistic biohacks both ancient and cutting edge for life changing sex Losing your virginity Perhaps you're a frustrated virgin or Incel disappointed with all the crappy advice about how to lose your virginity 33 steps are broken down for meaningfully losing your virginity And in these pages you'll get the red pills on dating sex and the fairer sex without the hopelessness and cynicism You'll learn about the four red flags of a blender deal breakers that should make you back away slowly from a woman You'll learn what qualifies as a virtuous woman with whom you might have a future And why there are reasons to be optimistic about finding love and even getting married one day This book is also a story of hope and redemption the memoir of a reformed pick up artist who enjoyed the decline all the way from America and Colombia to Ukraine and found edifying joy and meaning between the voluptuous thighs of a beautiful Bulgarian woman on the edge of Europe Includes 18 hour audiobook narrated by the author

*WTF?* Tim O'Reilly, 2017-10-10 Can we master the technologies we create before they master us A punchy and provocative assessment by one of Silicon Valley's sharpest observers Financial Times WTF can be an

expression of amazement or of dismay and today's technology elicits both reactions In this book Tim O'Reilly dubbed the Oracle of Silicon Valley by Inc magazine explores the upsides and potential downsides of today's WTF technologies What is the future when an increasing number of jobs can be performed by intelligent machines instead of people or done only by people in partnership with those machines What happens to our consumer based societies to workers and the companies that depend on their purchasing power Is income inequality and unemployment an inevitable consequence of technological advancement or are there paths to a better future What will happen to business when technology enabled networks and marketplaces are better at deploying talent than traditional companies How should companies organize themselves to take advantage of these new tools What's the future of education when on demand learning outperforms traditional institutions How can individuals adapt and retrain Will the fundamental social safety nets of the developed world survive the transition and if not what will replace them O'Reilly is the man who can really can make a whole industry happen according to former Google CEO Eric Schmidt and for decades he's identified and helped shape our response to emerging technologies with world shaking potential from the World Wide Web to Big Data and AI Here he shares the techniques he's used at O'Reilly Media to anticipate innovation waves and provides a framework for thinking about how current innovations are changing the nature of business education government financial markets and the economy as a whole He helps us understand how the parts of digital businesses work together to create marketplace advantage and customer value and why ultimately they cannot succeed unless their ecosystem succeeds along with them O'Reilly exhorts businesses to DO MORE with technology rather than just using it to cut costs and enrich their shareholders Robots are going to take our jobs they say O'Reilly replies Only if that's what we ask them to do Technology is the solution to human problems and we won't run out of work till we run out of problems Whether technology brings the WTF of wonder or the WTF of dismay isn't inevitable It's up to us A compelling narrative of how technology interweaves with the real world If it can cajole even a few tech titans to dwell on the social and political impact of what they do then it will have served a useful purpose Financial Times WTF is a book about technology as it was as it is and as it could be It is told from the perspective of someone who has been personally present at the most important moments in the fast paced history of tech and who played a significant role in those moments Please do read this book Cory Doctorow Boing Boing
