

Reading Comprehension Guide

Before You Read

Choose 2:

1. Read your homework questions
2. Read the headings/ subheadings
3. Do a 1 min. skim of the chapter/article

As You Read

1. Use Commas

 If a sentence is long and has commas, try reading it without the part in commas, and then with that part. (If the long sentence has no commas, add some. Read it again in chunks.)

2. Highlight the "Why"

 Highlight only sentences that explain why. Key words: "because," "therefore,"...

3. Add Headings

 Write headings (or sub-headings) as you read. This is an easy way to summarize as you go, and will make it easier to find info later.

4. Make Equations

Translate processes into equations. For example, "When you combine red with white, you make pink" becomes "red + white = pink." You can study the equations instead of the text.

5. Color Code

Color code like this: Green = already knew it. Yellow = review it. Red = confusing/learn/study it.

Avoid Reckie Mistakes!

- If you think you'd found an answer to a question, read the sentence before it to make sure you have the context.
- If you can't picture something you just read, back up. Read it again, bit by bit, until you can imagine each part.
