With *Entrepreneurial Bible to Venture Capital* Andrew Romans has tapped into the collective wisdom of 40 of today's leading VCs and angel investors to answer virtually every question you have about how to get your startup going and keep going. With stories behind the success of Skype, YouTube, Facebook, and many other companies, this one-of-a-kind guide is packed with inside advice you'll find nowhere else. It covers every aspect of an entrepreneurial venture from beginning to end: how to raise and structure initial angel funding, how to navigate complex syndicates of VC investors, and when and how to change tactics. From book jacket *Marketing* Roger A. Kerin, Steven W. Hartley, 2021

Marketing The Core utilizes a unique innovative and effective pedagogical approach developed by the authors through the integration of their combined classroom, college, and university experiences. The elements of this approach have been the foundation for each edition of *Marketing The Core* and serve as the core of the text and its supplements as they evolve and adapt to changes in student learning styles, the growth of the marketing discipline, and the development of new instructional technologies. *Creators Take Control* Edward Lee, 2023-03-28

A leading legal scholar offers a compelling new theory to explain the meteoric rise of non-fungible tokens (NFTs) and their impact on art, business, entertainment, and society, and explains how they are revolutionizing our understanding of ownership. If you buy an NFT, do you own anything? Critics say no. Then why are people spending so much money to own them, to the tune of \$27 billion in 2021? And why are big businesses and venture capital firms investing hundreds of millions to develop NFTs for people's use in the metaverse, a purely imaginary world? In *Creators Take Control*, Edward Lee offers a compelling new theory he calls Tokenism that answers these perplexing questions. Using vivid examples, Lee lucidly explains how NFTs operate and how they fundamentally change our understanding of ownership. Tokenism is an artistic, cultural, and technological movement that creates value in a new kind of ownership of a new type of property symbolized by a virtual token through a process of technological abstraction and artificial scarcity effectuated by NFTs. Ownership becomes virtual. What Cubism did in radically changing the twentieth-century perspective of creating and viewing art through cubes, Tokenism does today in altering our perspective of owning art and other things through tokens. Both movements radically reimagine what's possible. Creators and businesses have seized upon this profound transformation. In a short time, they have developed a new market for digital art, important new rights for creators, innovative business models based on decentralized collaboration, and a new type of interactive ownership that enables identity, community, and patronage through NFTs. These innovations are just the start of revolutionary changes to society. Lee shows how NFTs create a new form of decentralized intellectual property or De IP. Comparable to the movement to decentralized finance (DeFi), De IP empowers creators to take control of their artistic productions and livelihood. Lee's intellectual tour de force is filled with practical insights and hope for fostering creativity and a Virtual Renaissance for the ages. **Essentials of Marketing Analytics, 1e** Joseph F. Hair
