Science Experiments This Week

Providence Public Library (R.I.)

Science Experiments This Week:

The Well-trained Mind Susan Wise Bauer, Jessie Wise, 2004 This book will instruct you step by step on how to give your child an academically rigorous comprehensive education from preschool through high school Two veteran home educators outline the classical pattern of education the trivium high organizes learning around the maturing capacity of the child's mind the elementary school grammar stage the middle school logic stage and the high school rhetoric stage Using the trivium as your model you'll be able to instruct your child in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects Newly revised and updated The Well Trained Mind includes detailed book lists with complete ordering information up to date listings of resources publications and Internet links and useful contacts

Access Denied George Campbell Jr., Ronni Denes, Catherine Morrison, 2000-05-04 Since the Civil Rights Era of the 1960s minority groups have seen a tremendous amount of progress but African Americans Latinos and American Indians still remain severely underrepresented in science engineering and mathematics And although government industry and private philanthropies have supported more than 200 pre college and college level initiatives to increase the access and retention of minority students the outcomes of these programs have not been well documented This book from the National Action Council for Minorities in Engineering NACME presents definitive essays by leading research scholars academics and industry representatives on the participation of minorities in science mathematics and engineering Its extensive coverage includes essays on current demographics entering the education system influences on minority participation barriers to success and preparation for academic careers It is ideal for scholars researchers educators and policymakers who study and strive to break the barriers of discrimination

Last Minute Science Fair Ideas - Due in a Week or More... Experiland, 2010-09-23 Have you ever wondered how a telescope brings objects closer or how cameras take pictures How boats float or aeroplanes fly All of these seemingly complicated things can be explained by basic science With the help of this book you will construct many weird wonderful and wacky experiments that you can have hours of fun with Is the deadline for your science fair project quickly approaching Not to worry the Last Minute Science Fair Ideas series is written in an easy to follow format that will guide you to create an exciting science project for the upcoming fair The science projects in each of the books of this 4 volume series are conveniently sorted according to the approximate time required to complete each experiment The 50 projects contained in this science experiment e book cover a wide range of scientific topics from Chemistry and Electricity to Life Sciences and Physics there are even experiments on earth science astronomy and geology all designed for science students from grade 1 to 8 With this book you are sure to find a project that interests you When you are interested in a certain science topic you will have more fun and learn more too Amongst many others you will make a simple astrolabe to measure the altitude of objects in the night sky make dirty water pure and drinkable to understand how evaporation condensation works make beautiful patterns on a wall to experiment with sound waves and

build a Franklin bells device for detecting high voltage lightning storms and learn about static electricity Other fun experiments include growing your own crystals along a piece of string making your own homemade perfume measuring the extend of creeping soil on hillsides making a water barometer to measure the air pressure checking the wind speed with your own anemometer building your own rain alarm building your own foxhole radio sending Morse code signals with your own telegraph mummifying an orange growing plants in your own hydroponic garden testing the effects of acid rain on ocean life studying the complete life cycle of a meal worm and many many more When making these gadgets you ll discover that science is a part of every object in our daily lives and who knows maybe someday you will become a famous inventor too Designed with safety in mind most of the items you will need for the experiments such as jars aluminium foil scissors and sticky tape you can find around your home Others such as magnets lenses or a compass you will be able to buy quite cheaply at a hobby shop or hardware store
