

With Smile Shutter™ technology, the DSC-W130 captures smiles the moment they happen and lets you share them beautifully in High Definition™. You can expect stunning detail and color thanks to its 8.1 megapixel resolution, Carl Zeiss® 4x optical zoom lens, and Face Detection technology.

- 8.1 MP Super HAD™ CCD
 

More megapixels give you more detail and options when you make big prints or crop in tight on your subjects. The advanced Sony® Super HAD™ CCD Acousto-Optic Shutter (CCD) design allows more light to pass to each pixel, increasing sensitivity and reducing noise.
- Carl Zeiss® 4x Optical 28-mm Lens
 

4x optical zoom brings distant subjects closer to help you capture sharp, detailed long shots and quickly frame images for better composition – great for family sports, outdoor fun, and travel photos.
- 2.5" TFT LCD Display
 

The large, bright 2.5" TFT LCD (111,840 pixels) display makes it easy to compose shots, check results, and read menus in sharp, natural color, even in bright sunlight.
- Face Detection
 

Face Detection technology automatically controls the camera's focus, exposure, and white balance to help reveal faces in shadows, make skin tones look more natural, reduce red-eye, and eliminate harsh facial glare.
- Smile Shutter Mode
 

Smile Shutter™ technology captures smiles the moment they happen™ – without the need to press the shutter. The mode can be set to a pause when your subject laughs, smiles or even grimaces. Face Detection is able to detect up to 8 children and adults to set priority.
- Sony Double Anti-Blur Solution
 

The combination of Super SteadyShot™ optical image stabilization and high ISO sensitivity helps compensate for shaky hands, minimizes blur, and allow blur-free shooting to preserve the moment.
- Super SteadyShot™ Optical Image Stabilization
 

Super SteadyShot™ image stabilizer compensates for shaky hands and minimizes blur with a built-in gyro sensor that detects camera movement at 100 seconds' interval, and reacts to a 10-second lag – so there's no need to crop in on your shots for red-eye blur.

- High Sensitivity ISO 3200
 

With high sensitivity of ISO 3200, you can shoot effectively in low light without having to sacrifice the photo, while the Sony Clear RAW™ Noise Reduction system helps suppress the color noise that can degrade low-light photos.
- Dynamic Range Optimization Standard
 

Powered by the exclusive Sony Bionik high-speed processing engine, Dynamic Range Optimization preserves image data in bright highlights and reveals more detail in shadows or backlit areas – for great results even in difficult lighting conditions.
- Convenient Photo Modes
 

To adjust quickly for specific shooting situations, you can choose from several convenient photo modes, including Auto, Program Auto, and Scene Select modes such as Twilight, Twilight Portrait, Fireworks, Smile Shutter, Landscape, Soft Scene, Snow, High Sensitivity, and Beach environments.
- MP4® Movie VX Fine Mode
 

Capture VGA (640 x 480) full-motion video clips at a high frame rate (up to 30 frames per second\*). The maximum length of time you can shoot continuously is about 10 minutes.
- Automatic Macro Shooting
 

Automatic Macro Shooting – Standard Auto Focus covers the macro focus range, eliminating the need to manually change focus modes for close-up photography. The Macro mode has not been eliminated, and enabling it accelerates Auto Focus when shooting at point-blank range.
- 9-Point Auto Focus
 

For a true off-center subject you can make your shot more interesting, a 9-point auto-focus mode uses a auto-focus at 9 pre-set points instead of 5 – giving you greater creative freedom to compose your image.
- Smart Zoom™ Feature
 

The Sony Smart Zoom™ Feature™ intelligently "zooms into" the central portion of interest in your photo, helping avoid the image degradation of other digital zooms.

- Burst Mode
 

You can fire off up to one hundred shots at Approx. 0.90 second intervals (at any resolution; VGA 640x480 resolution model) – a great way to capture a child's first steps or a pet's best tricks.

#### ADDITIONAL FEATURES

- Simple Setup Controls
- Easy Shooting Mode
- Function Guide
- Optical Viewfinder
- 15-MB Internal Memory
- Memory Stick Duo™ Media Convenience
- Stamina® Battery Power
- HDTV® Compatibility\*
- "PhotoTV HD"
- 36x High-Resolution Mode

**Aesthetic Dentistry** J. Schmidseder, 2011-01-01 In today's modern dental practice the patient's role has changed from petitioner seeking pain relief to client requesting a wide range of services including improved looks. Often the patient will decide between amalgam, gold, composite or ceramics as the material of choice for a posterior tooth restoration or have a say in the processing method used for its fabrication. This lavishly illustrated new volume in the prestigious Color Atlas of Dental Medicine Series explores the full scope of today's rapidly growing practice of aesthetic dentistry and its future evolution. You will find full coverage of the improved aesthetics and biocompatibility possible in new all ceramic and metal ceramic systems plus details on inlay and veneer processing methods. And you will benefit from the informed discussion of each technique and system complete with the advantages and disadvantages of each. Special topics covered: Basic principles, indications, diagnostics and treatment planning. All background on composites, direct posterior restorations and composite inlays. Aesthetics and function of direct anterior restorations. The newest metal ceramic and all ceramic restorations including clinical aspects of the all ceramic crown and inlays. Step by step bleaching techniques. How to achieve maximum aesthetics with implants. Complete with a chapter on state of the art computer assisted systems for use in restorative dentistry and the impact of aesthetic techniques on every dental subspecialty. This book is informative and current. It recognizes that today's practice has dramatically shifted from pain relief and functionality to a demand for excellent cosmetic results and it will be a valued resource in every practitioner's office. Stay up to date in a rapidly evolving field, order your copy today.
