Psychological Hermeneutics for Biblical Themes and Texts J. Harold Ellens,2012-05-03 For centuries scholars have been developing ways of studying the bible through exegesis historical critique literary critique form criticism and narrative analysis During the last half century new theoretical approaches have come to the fore Psychological Hermeneutics takes as its starting point the text itself and its

context the dynamics of the human document created the person s who authored the text the original audience for which it was intended the subsequent audiences to which it spoke and the factors that were at play behind in and in front of the text The contributions to this volume examine the growth of Psychological Hermeneutics as a discipline within biblical studies The book is structured in two parts The first assesses the approach taken by Wayne G Rollins one of the pioneers of this field The second provides applications of Rollins approach The result is a book which presents a state of the art survey of the discipline and development of Psychological Hermeneutics over the last thirty years

The

Flight into The Unconscious Wolfgang Giegerich,2020-03-06 Psychological analysis usually sets its sights upon the patient or upon cultural phenomena such as myths literature or works of art The essays in this volume by contrast have another addressee another subject matter psychology itself Deeply informed by Jung s insight regarding the discipline s lack of an objective vantage point outside and beyond the psyche their Jungian author again and again turns Jung s contribution to psychology around upon itself in the spirit of an immanent critique Cutting to the quick the question is put in its constitution as psychology is Jungian psychology up to the level of what its insight into psychology s lack of an Archimedean point would require Are the interpretations it gives of its various subject matters alchemy religion the unconscious and the rest matched by its interpretation of itself Has its meeting itself in them had consequences for itself consequences in terms of the fathoming of its own truth Or clinging to the standpoint of empirical observer did it ultimately demur with regards to the

question of their truth and its own this despite Jung's having characterized his work as an opus divinum Topics include Jung's psychology project as a response to the condition of the world the smuggling inherent in the logic of the unconscious the closure and setting free dialectic of alchemy and psychology the blindness to logical form problematic the faultiness of the opposition Individual and Collective Jung's communion fiasco his thinking the thought of not thinking the veracity of his Red Book the disenchantment complex and as indicated in the title of this volume Jung's psychology project as a counter speculative flight into the unconscious *"Dreaming the Myth Onwards"* Wolfgang Giegerich, 2020-03-06 The fundamental importance of Christianity for Jung is well documented in his writings and letters For the whole of his long career the great psychologist had wrestled with what he called the great snake of the centuries the burden of the human mind the problem of Christianity By comparison his statements about Hegel are quite scarce Both topics nevertheless have in common that they elicited from Jung radical accusations accusations not presented in the calm tone of a psychological scholar but fired by a deep seated personal affect that propelled Jung to wish to dream the myth onwards that is to move to a new his own improved and corrected version of Christianity Rather than merely portraying and elucidating Jung's views this volume critically examines his theses and arguments by means of a series of close readings and by confronting his claims with the texts on which his interpretations are based The guiding principle in the spirit of which the author's investigation is conducted is the question of the needs of the soul and the standards of true psychology While constantly bearing these needs and standards in mind diverse topics are discussed in depth Jung's interpretation of a dream he had had about being unable to completely bow down before the highest presence his thesis concerning the patriarchal neglect of the feminine principle his views about the alleged one sidedness of Christianity the recalcitrant Fourth and the reality of Evil his understanding of the Trinity and the spirit his rejection of Hegel and of speculative thought and his reaction to the modern doubt that has killed religious faith A companion to the preceding volume *The Flight into the Unconscious* the essays collected here continue its radical critique of Jung's psychology project yielding not only deep insights into Jung's personal religiosity and into what ultimately drove his psychology project as a whole but granting as well a more sophisticated understanding of the psychological potential and telos of the Christian idea *Spring, 2007 After Prophecy* Tom Cheetham, 2007 This book explores the status of religion in the Post Prophetic Age especially as seen through the eyes of the French Islamic scholar Henry Corbin In lucid and simple prose Cheetham explores the creative role of the imagination in the formative ground of the three great Abrahamic religions Judaism Christianity and Islam For Corbin engaging the soul of the world through the mediating power of the Imaginal is an act of love a theme Cheetham expands through his analysis of such concepts as mystical poverty contemplative knowledge the luminosity of the earth the theophanic vision the Christ Angel Incarnation the divine sensorium alchemical transformation the spiritual humanism of Ivan Illich Western iconoclasm and the centrality of gnosis This book offers a visionary alternative to the confusions of contemporary life It speaks to believers and non believers
