Tradition William Theodore De Bary, 1999 This text is a collection of primary readings on the social intellectual and religious traditions of China Many of the selections are new to this volume and more than half the texts from the first edition have been newly translated The book is organized in chronological order and arranged in four parts beginning at the dawn of literate Chinese civilization with the Oracle Bone inscriptions of the late Shang Dynasty 1571 045 BC and continuing through the end of the Ming Dynasty AD 1644 **Sources of Chinese Tradition** William Theodore De Bary, 1999 Chronologically

presents Chinese civilization covering antiquity figures such as Confucius Mencius and Laozi the Han dynasty including readings from the I Jing the development of Buddhism including Daoism and Mahayana Buddhism Neo Confucianism and thought in late imperial China Confucian Tradition and Global Education Wm. Theodore de Bary, 2007-02-15 Professor de

Bary argues in these three lectures that China's Confucian tradition is still relevant in the democratic and pluralistic world order of today. First, Confucian tradition values free discourse and the pursuit of knowledge. Second, He goes into further details of the content and method by which the Chinese classics can be restored to a place in a modern humanities curriculum relevant to a global horizon. Third, de Bary envisions a global curriculum of great books through translation. Throughout these lectures, one can see de Bary's passion as a humanist and an educator and one who has had tremendous experience in conceiving and editing the Introduction to Oriental Civilizations Series, which have had so much impact upon the teachings of Asia in America's colleges. Two additional chapters by Professors Tze-wan Kwan and Cheung Chan-fai on the issues of Tang Chun-i's concept of general education and language media in education respectively are added.

A Brief History of the Relationship Between Confucianism, Daoism, and Buddhism Zhongjian Mou, 2023-01-01 Chinese traditions of Confucianism, Daoism, and Buddhism have a profoundly philosophical dimension. The three traditions are frequently referred to as three paths of moral teachings. In this book, Mou provides a clear account of the textual corpus that emerges to define each of these traditions and how this canonical axis was augmented by a continuing commentarial tradition as each generation reauthorized the written core for their own time and place. In his careful exegesis, Mou lays out the differences between the more religious reading of these traditions with their defining practices that punctuate the human journey through life and the more intellectual and philosophical treatment of the texts that has and continues to produce a first-order culture of annotation that becomes integral to the traditions themselves. At the center of the alternative religious experience reflected throughout the teachings of Confucianism, Daoism, and Buddhism is the project of personal cultivation as it comes to be expressed as robust growth in family and communal relations. For Mou, these three highly distinctive and yet complementary ways of thinking and living constitute a kind of moral ecology wherein each of them complements the others as they stand in service to a different dimension of the human need for an educated spirituality.

The Intellectual Journey of Thomas Berry Heather Eaton, 2014-04-02 Thomas Berry had a gentle yet mesmerizing and luminescent presence that was evident to anyone who spent time with him. His intellectual scope and erudite manner were compelling, and the breadth, depth, clarity, and elegance of his vision was breathtaking. Berry was an intellectual giant and cultural visionary of extraordinary stature. Thomas Berry's vast knowledge of history, religions, and cultural histories is a unique blend revealing a genuine original thinker. The ecological crisis in all its manifestations came to dominate Berry's concerns. He perceived that the greatest need was to offer the possibility of a viable future for an Earth community. Many know of his proposal for a functional cosmology, the need for a new story, and a vital Earth-sensitive spirituality. Few know of his rich and varied intellectual journey. *The Intellectual Journey of Thomas Berry: Imagining the Earth Community* is about the roots and insights hidden within his ecological spiritual proposal. These essays, written by experts on Thomas Berry's work, probe into and reveal distinct themes that permeate his work in gratitude for his contribution to the Earth.

Here are just a few of the topics covered in this second volume of *Sources of Chinese Tradition*: Early Sino-Western contacts in the seventeenth century; Four centuries of Chinese reflections on differences between Eastern and Western civilizations; Nineteenth and twentieth century reform movements with treatises on women's rights, modern science and literary reform; Controversies over the place of Confucianism in modern Chinese society; The nationalist revolution including readings from Sun Yat-sen and Chiang Kai-shek; The communist revolution with central writings by Mao Zedong; Works from contemporary China featuring political essays from Deng Xiaoping and dissidents including Wei Jingsheng.
