The Atheists Guide To Reality:

The Atheist's Guide to Reality: Enjoying Life Without Illusions Alex Rosenberg,2011-09-20 The Atheist's Guide to Reality is a book for nonbelievers who embrace the reality driven life **The Atheist's Guide to Reality** Alexander Rosenberg,2011 We can't avoid the persistent questions about the meaning of life and the nature of reality Philosopher Alex Rosenberg maintains that science is the only thing that can really answer them all of them His upbeat book takes physics seriously as the complete description of reality and accepts all its consequences He shows how physics makes Darwinian natural selection the only way life can emerge and how that deprives nature of purpose and human action of meaning while it exposes conscious illusions such as free will and the self The science that makes us nonbelievers provides the insight into the real difference between right and wrong the nature of the mind even the direction of human history The Atheist's Guide to Reality draws powerful implications for the ethical and political issues that roil contemporary life The result is nice nihilism a surprisingly sanguine perspective atheists can happily embrace From publisher description

A New Guide to the Debate about God Martin Prozesky,1992 Millions of Christians all over the world testify that the greatest gift in their lives is the God they find in and through Jesus Christ describing him as the source of all goodness truth beauty and joy and the world's only hope for others But there are also millions who think otherwise sensing here a massive delusion which stands in the way of human maturity and well being This book is about the debate between these two great groups The central questions it discusses are how sound is belief in God as taught by the historic Christian churches Can sincere seekers after truth who care for the well being of our world and those in it still believe in God Does faith in God continue to thrive because it wins the respect of such people or is it living off and eroding the inherited capital of the past These questions are explored by careful non technical and lucid presentations of the arguments for and against Christian belief in God which try to avoid caricature or simplistic appeals The two cases are then

judged in a final chapter by norms accepted by both sides and a conclusion arrived at While as Dr Prozesky admits the ocean is doubtless too mysterious to yield all its secrets to one person s fathoming all readers of whatever persuasion will gain much from his fascinating and balanced presentation and findings The Christian Leader ,1929 The Bible Looking Glass: Reflector, Companion and Guide to the Great Truths of the Sacred Scriptures, and Illustrating the Diversities of Human Character, and the Qualities of the Human Heart ,1881 **St. James Guide to Science Fiction Writers** Jay P.
