The Awakening Of China:

The Awakening of China W. A. P. Martin, 2022-09-15 In *The Awakening of China* W A P Martin presents a profound and incisive exploration of China's transition during the late 19th and early 20th centuries. Employing a rich narrative style, Martin weaves historical analysis with personal reflection, illuminating the socio-political transformations and cultural awakenings that marked this critical period. The book serves as both a historical document and a prophetic vision of modern China's potential, encapsulating the tension between tradition and modernity within the broader context of global influences and internal reforms. W A P Martin was a renowned missionary and sinologist whose deep engagement with Chinese culture and language informed his perspective on China's evolution. His experiences in China, coupled with his scholarly insights, allowed him to navigate the complexities of Eastern and Western thought, making him an authoritative voice on Chinese affairs during a tumultuous era. Martin's blend of education and immersion in Chinese society significantly shaped his interpretations, providing valuable understanding to his audience. This book is highly recommended for readers interested in the intersection of history, culture, and politics in China. Martin's thoughtful analysis not only enriches our understanding of China's past but also offers critical reflections relevant to contemporary discussions about national identity and globalization. A must-read for scholars and enthusiasts alike.

The Awakening of China, 1897 Sun Yat Sen and the Awakening

of China James Cantlie, Charles Sheridan Jones, 1912 **Awakening China** John Fitzgerald, 1996 This innovative work is the first to approach the awakening of China as a historical problem in its own right and to locate this problem within the broader history of the rise of modern China. It analyzes the link between the awakening of China as a historical narrative and the awakening of the Chinese people as a political technique for building a sovereign and independent state. In sum, it asks what we mean when we say that China woke up in this century. Fiction and fashion, architecture and autobiography, take their places alongside politics and history, and the reader is asked to move about among writers, philosophers, ethnographers, revolutionaries, and soldiers who would seem to have little in common. Rumor is sometimes taken as seriously as truth, novels are consulted as frequently as documents, and dreams are given a prominence normally reserved for facts in the writing of history. This book follows the legend of China's awakening from its origins in the European imagination to its transmission to China and its encounter with a lyrical Chinese tradition of ethical awakening to its incorporation and mobilization in a mass movement designed to wake up everyone. The idea of a national awakening crossed all discursive boundaries to make room for nationalist politics in personal culture and helped to conscript personal culture into service of the revolutionary state. The book focuses on the Nationalist movement in south China, highlighting the role of Sun Yat-sen as director of awakenings in the Nationalist Revolution and the place of Mao Zedong as his successor in the politics of mass awakening. Of special interest is the previously untold story of Mao's role in the Nationalist Propaganda Bureau, showing Mao as a master of propaganda and discipline rather than as peasant movement activist.
