**The White Book** Ken Mansfield, 2007-10-30 Through exclusive photos and personal stories former US manager of Apple Records and Grammy Award winning producer Ken Mansfield offers a compelling memoir that delves into his life in the 1960s and 70s and his unique partnership with the Beatles and other musicians who orbited their world As observer friend and colleague Mansfield sat in their recording sessions partied in their swimming pools took their irate calls and publicized their successes Entertaining historically accurate and illuminating a side of the Fab Four known only to a few like Mansfield The White Book shines fresh light on the true characters behind the cultural phenomena that revolutionized a generation As the former Head of Apple Records International Jack Oliver has said of Ken He is one of the few insiders left that bore witness to the highs and lows of those insane days when we ruled the world Ken has a unique gift He can take you in the room and have you sit with the folk he knows and make you one of the gang part of the plan and considering these folk include the Beatles Dolly Parton Waylon Jennings the Beach Boys Roy Orbison David Cassidy and a whole host more that is some doing I really enjoyed sitting in on his world and I respect the affection he has for our game and what he brought to it will get you

ANDREW LOOG OLDHAM Rolling Stones Manager and Producer Ken Mansfield brings us a new and closely personal perspective not only on the Beatles but on a whole cast of musical characters from Brian Wilson to Don Ho An observant and perceptive man in the centre of the storm a contradictory man both ambitious and spiritual but at the heart of the record industry during its most exciting years and enjoying every minute of it I lived through those years with Ken and we became friends It is a pleasure to experience so much of it all again through the accuracy of his story telling and the clarity of his memory

PETER ASHER Peter and Gordon A R Chief Apple Records Producer Manager James Taylor Linda Ronstadt Carole King et al Journalism is normally a very inexact science Many of the countless books about the Beatles have been written by researchers not by people who were actually there Everyone has experienced reading a book or article where one s own inside knowledge about a particular person or event shows up inaccuracies on the part of the writer that totally distort the truth This book is an exception I know because I was there for some of it myself Ken Mansfield and I unknowingly shared the experience of the famous Apple rooftop session where I was nervously adjusting mikes and cables for the sound recording of that unforgettable day Ken was not only working for the Beatles through their heyday he was also their trusted friend There is no one better equipped to tell the Beatles story truthfully and more importantly factually from the inside
