*Swallow* Angela Turner, 2015-11-15 Known as heralds of spring and beautiful elegant flyers swallows are among the most beloved of familiar birds Because they return with the spring swallows as Angela Turner explains have long been associated with the renewal of life love fidelity and fertility while their ability to travel incredible distances has given them associations with freedom and speed That freedom however hasn't kept them from becoming familiar figures in towns and cities They often seem to even seek out human company for example barn swallows are known for nesting in our buildings and purple martins in our back yards Destruction of their natural habitat however has proved dangerous to some species of swallow and recent years have seen some populations dwindling to the point of near extinction Turner outlines the reasons for these declines as part of her engaging account of the natural and cultural history of this beloved bird

**Birdscapes** Jeremy Mynott, 2021-10-12 What draws us to the beauty of a peacock the flight of an eagle or the song of a nightingale Why are birds so significant in our lives and our sense of the world And what do our ways of thinking about and experiencing birds tell us about ourselves Birdscapes is a unique meditation on the variety of human responses to birds from

antiquity to today and from casual observers to the globe trotting twitchers who sometimes risk life limb and marriages simply to add new species to their life lists Drawing extensively on literature history philosophy and science Jeremy Mynott puts his own experiences as a birdwatcher in a rich cultural context His sources range from the familiar Thoreau Keats Darwin and Audubon to the unexpected Benjamin Franklin Giacomo Puccini Oscar Wilde and Monty Python Just as unusual are the extensive illustrations which explore our perceptions and representations of birds through images such as national emblems women s hats professional sports logos and a Christmas biscuit tin as well as classics of bird art Each chapter takes up a new theme from rarity beauty and sound to conservation naming and symbolism and is set in a new place as Mynott travels from his home patch in Suffolk England to his away patch in New York City s Central Park as well as to Russia Australia and Greece Conversational playful and witty *Birdscapes* gently leads us to reflect on large questions about our relation to birds and the natural world It encourages birders to see their pursuits in a broader human context and it shows nonbirders what they may be missing
