The Behavior Gap Carl Richards:

The Behavior Gap Carl Richards, 2012-01-03 It's not that we're dumb. We're wired to avoid pain and pursue pleasure and security. It feels right to sell when everyone around us is scared and buy when everyone feels great. It may feel right but it's not rational. From *The Behavior Gap*. Why do we lose money? It's easy to blame the economy or the financial markets but the real trouble lies in the decisions we make. As a financial planner, Carl Richards grew frustrated watching people he cared about make the same mistakes over and over. They were letting emotion get in the way of smart financial decisions. He named this phenomenon the distance between what we should do and what we actually do: the behavior gap. Using simple drawings to explain the gap, he found that once people understood it, they started doing much better. Richards's way with words and images has attracted a loyal following to his blog, posts for *The New York Times*, appearances on National Public Radio and his columns and lectures. His book will teach you how to rethink all kinds of situations where your perfectly natural instincts for safety or success can cost you money and peace of mind. He'll help you to avoid the tendency to buy high and sell low. Avoid the pitfalls of generic financial advice. Invest all of your assets, time and energy as well as savings more wisely. Quit spending money and time on things that don't matter. Identify your real financial goals. Start meaningful conversations about money. Simplify your financial life. Stop losing money. It's never too late to make a fresh financial start. As Richards writes, "We've all made mistakes but now it's time to give yourself permission to review those mistakes, identify your personal behavior gaps and make a plan to avoid them in the future. The goal isn't to make the perfect decision about money every time but to do the best we can and move forward. Most of the time that's enough." *The Investing Oasis* J. T. Mason, 2022-10-25 A guided journey revealing hidden values and buried treasures while negotiating the investing landscape. A metaphorical journey through the hot, shifting sands of the capital markets desert to awaken readers to the urgency of the Behavior Gap: a chronic gap of underperformance relative to the markets experienced by investors worldwide. This is a roadmap of portfolio management concepts and contrarian tactics that can turn misbehaviors, undue risks and short-term gambles into longer-term strengths. Through 27 chapters and four tiers, the author progressively introduces more powerful tools, techniques used in the founding and ongoing management of the Oasis Growth Fund, a North American Hedge Fund. *The Smart Financial Advisor* Bill Martin CFA, 2017-10-25 *Stop Investing Like They Tell You* Stephen Spicer, 2021-08-31 The Wall Street Journal bestselling guide to personal investing that flies in the face of standard, outdated financial advice. Working under the umbrella of a large brokerage firm, certified financial planner Stephen Spicer began to see the flaws in the traditional advice he was supposed to give his clients. Unafraid to challenge the paradigms of a broken system, Stephen built Spicer Capital to share his own personal investment strategies, ones that directly address contemporary investment and financial planning concerns. In *Stop Investing Like They Tell You*, Stephen guides investors through a comprehensive understanding of the sixteen most egregious myths that get repeated throughout the financial industry. It is a master class in savvy investing with practical

advice on how to protect and grow your life savings in today's chaotic ever shifting market **How to Decide** Annie Duke, 2020 What do you do when you're faced with a big decision? If you're like most people you probably make a pro and con list, spend a lot of time obsessing about decisions that didn't work out, get caught in analysis paralysis, endlessly seek other people's opinions to find just that little bit of extra information that might make you sure, and finally go with your gut. What if there was a better way? In *How to Decide*, bestselling author Annie Duke and former professional poker player lays out a series of tools anyone can use to make better decisions.

The Financial Advisor's Success Manual David Leo, Craig Cmiel, 2017-12-07 Do you want to become a million dollar financial advisor, boost client satisfaction and dramatically expand your business? The One-Page Financial Plan Carl Richards, 2015-03-31 Intends to remove the complexity from investing by encouraging readers to identify deeply personal goals and to use a series of steps to help set up and attain a workable, meaningful financial plan.

The Price You Pay for College Ron Lieber, 2021-01-26 Named one of the best books of 2021 by NPR, New York Times Bestseller, and a New York Times Book Review Editor's Choice pick, *Masterly* represents an extraordinary achievement. It is comprehensive and detailed without being tedious, practical without being banal, impeccably well-judged and unusually rigorous. Daniel Markovits, New York Times Book Review. Ron Lieber is a gift. Scott Galloway, The hugely popular New York Times Your Money columnist and author of the bestselling *The Opposite of Spoiled*, offers a deeply reported and emotionally honest approach to the biggest financial decision families will ever make: what to pay for college, a decision made even more confusing because of the Covid-19 pandemic. Sending a teenager to a flagship state university for four years of on-campus living costs more than 100,000 in

many parts of the United States Meanwhile many families of freshmen attending selective private colleges will spend triple over 300 000 With the same passion smarts and humor that infuse his personal finance column Ron Lieber offers a much needed roadmap to help families navigate this difficult and often confusing journey Lieber begins by explaining who pays what and why and how the financial aid system got so complicated He also pulls the curtain back on merit aid an entirely new form of discounting that most colleges now use to compete with peers While price is essential value is paramount So what is worth paying extra for and how do you know when it exists in abundance at any particular school Is a small college better than a big one Who actually does the teaching Given that every college claims to have reinvented its career center who should we actually believe He asks the tough questions of college presidents and financial aid gatekeepers that parents don't know or are afraid to ask and summarizes the research about what matters and what doesn't Finally Lieber calmly walks families through the process of setting financial goals explaining the system to their children and figuring out the right ways to save borrow and bargain for a better deal The Price You Pay for College gives parents the clarity they need to make informed choices and helps restore the joy and wonder the college experience is supposed to represent *El método*
