Tiling Guide:

Ceramic and Stone Tiling John Ripley, 2014-11-30 Some tiling books adopt a hypothetical stance to the subject. This book rejects this approach and demonstrates how a do it yourself enthusiast can carry out a tiling job to a high standard in situations that exist in the real world. Covers all the basic processes from designing the job through to the final grouting and cleaning down. Procedures that are of vital importance such as setting out are covered in considerable detail. The reader is told what can go wrong and given advice to rectify problems. Attention is also paid to tiling with terracotta, marble, slate and granite that involve slightly different techniques compared to ceramic tiling. Presents highlighted useful tips throughout the text. Well illustrated with detailed step by step colour photographs and diagrams
