Human-Computer Interaction - INTERACT 2009 Tom Gross, Jan Gulliksen, Paula Kotzé, Lars Oestreicher, Philippe Palanque, Raquel Oliveira Prates, Marco Winckler, 2009-08-20 INTERACT 2009 was the 12th of a series of INTERACT international conferences supported by the IFIP Technical Committee 13 on Human Computer Interaction. This year INTERACT was held in Uppsala, Sweden, organized by the Swedish Interdisciplinary Interest Group for Human Computer Interaction STIMDI in cooperation with the Department of Information Technology at Uppsala University. Like its predecessors, INTERACT 2009 highlighted both to the academic and to the industrial world the importance of the human computer interaction HCI area and its most recent breakthroughs on current applications. Both experienced HCI researchers and professionals as well as newcomers to the HCI field interested in designing or evaluating interactive software, developing new interaction technologies or investigating overarching theories of HCI found in INTERACT 2009 a great forum for communication with people of similar interests to encourage collaboration and to learn. INTERACT 2009 had Research and Practice as its special theme. The reason we selected this theme is that the research within the field has drifted away from the practical applicability of its results and that the HCI practice has come to disregard the knowledge and development within the academic community.

Technobrand Chuck Pettis, 2001-07-01 In TechnoBrands, Chuck Pettis introduces the first published step by step process for building brands. While modern day branding has been around for more than a century, everybody knows the power of names such as Coca Cola, Microsoft, GE, Disney, Intel, or Nokia. Very few people know the secrets of branding and how to successfully apply branding. Filled with examples and insights from successful technology marketers such as Hewlett Packard, Microsoft, and Intel, TechnoBrands describes every step in the branding process, including market research, creating the brand identity, applying the brand, and creating successful brand names. While written from a technology product perspective, the proven branding process in TechnoBrands has been applied to consumer brands and non-profit organizations with great success. Chuck Pettis has written an important book on a subject of great significance to technology companies of all types. Those who don't grasp the meaning and value of the brand assets can only hope their competitors are equally naive. Roy E. Verley, Director, Corporate Communications, Hewlett Packard. Building strong brands is the only way to ensure enduring, profitable growth. If this is your goal, read TechnoBrands. Larry Light, President, CEO, Arcature Corporation.
