## About the backup battery

The backup power source, an Ni-MH (200 mAh) battery, keeps the unit's memory and clock information for up to 10 years. The battery also powers the alarm, operating for about 10 minutes after the alarm goes off.

Note that the headlight will not light up during a power interruption.

### Knowing when to replace the battery

If a power interruption occurs when the battery is low, the brightness of characters in the display becomes 0. If the battery does not charge the characters, the current time and alarm functions will be interrupted.

Replace the battery with a new CR2032 lithium battery. Use of another battery may prevent a radio from operating.

### Replacing the backup battery

- 1 Disconnect the AC plug connected to the AC outlet, remove the two screws that secure the battery compartment to the bottom of the unit using a screwdriver, and remove the battery compartment. (See Fig. 1-2-1)
- 2 Insert a new battery in the battery compartment with the + side facing up. To remove the battery from the battery compartment, press it out from the side marked "PUSH" (See Fig. 1-2-2)
- 3 Return the battery compartment back into the unit and secure it with the screws. (See Fig. 1-2-3)

**Note:**  
When you replace the battery, keep the AC plug connected to a wall outlet. Otherwise, certain radio and alarm functions will not function if the replacement is not completed within one minute.

### If the time in the display is incorrect after the battery is changed (RESET)

Push the Reset switch with the pointed device. The Reset switch is on the main board located in the battery compartment.

**Notes:**

- When you reset before the lithium battery is installed, set the clock again after the unit is used.

**Battery warning:**  
When the time will be left unchanged for a long time, remove the battery to avoid under battery discharge and damage to the unit from battery leakage.

### Preparing the remote commander

Before using the unit's remote commander for the first time, remove the insulation film. (See Fig. 1-3-1)

### When to replace the battery

When removed and the battery of CR2032 lithium for about one minute, when the remote commander no longer operates or fails, replace the battery with new battery. (See Fig. 1-3-2)

**Notes:**
