## **MY AUTOBIOGRAPHY**

I am Alea Mae D. Benitez, I was born on May 7, 2000 in Pasay City, Philippines. We are two siblings in the family, I am the second child. My mother's name is Divina D. Benitez from Sorsogon, Bicol. My father's name is Nelson D. Benitez. And he is from Camarines Sur, Bicol.

During weekends, we usually spend our days in the family. We always go to church. We helped each other in our activities. My family was a happy and loving family. I had a happy childhood living with my parents and my siblings. I completed my elementary education at Don Carlos Velez Elementary School. During my junior high school, I completed my junior high school at President Corazon Aquino National High School and I usually spend my time with my friends. Since the lockdown, I have a daily routine with my friend for a Google meet until dawn, and we do various things when we do, such as talk about what is going on in our lives and watch movies that have been shown several times. We have been watched pitch perfect all seasons. I finished it several times. When I am not with them, I watch shows like Mr. Queen and Ghost Doctor. And I am a senior at Pasay City South High School, I work hard on everything I can to get into a good university where I can continue my college.

**The Autobiography of an Idea** Louis Henri Sullivan, 2012-07-01 The Autobiography of an Idea Louis H. Sullivan, 2025-06-03T20:32:13Z Louis Sullivan was one of the most important architects working at the turn of the 20th century His most well known work was done in Chicago as part of the firm of Adler and Sullivan but he also designed well regarded buildings in cities like Philadelphia St Louis and Buffalo He has been called both the father of the skyscraper and the father of modernism as well as being the progenitor of the famous maxim form follows function Building in the seething crucible of progress that was post fire Chicago Sullivan put that famous maxim the idea of his autobiography to use by creating forms and grammars for the new kinds of high rise buildings made possible by the newly invented technique of steel frame construction But contrary to the impression of sparse minimalism that the mid century Bauhaus movement brought to form follows function Sullivan's buildings were often intricately decorated with organic Beaux Arts and Art Nouveau ornaments gracing their richly designed facades This book his autobiography was commissioned by the journal of the American Institute of Architects Sullivan accepted the commission in part due to the financial difficulties he had encountered later in life it was first published serially then as a book in 1922 Sullivan died just two years later The narrative is in the third person and for its first three quarters covers Sullivan's youth education and early apprenticeships in a prose style so elegant that it's hard to believe Sullivan was an architect and not a writer by trade Nothing of his adult personal life is mentioned and surprisingly almost no space is given to any of the specific buildings he designed After he briefly describes starting his legendary partnership with Dankmar Adler he concludes the book with an abbreviated description of the planning of Chicago's famous 1893 World's Columbian Exposition in which a campus of nearly 700 acres of monumental white Beaux Arts buildings was erected in just a few years granting Chicago the moniker of the White City before entering a philosophical exploration of his theory of form follows function This book is part of the Standard Ebooks project which produces free public domain ebooks
