**Russian Conservatism** Glenn Diesen, 2021-01-12 Russian conservatism is making a forceful return after a century of experimenting with socialism and liberalism Conservatism is about managing change by ensuring that modernization evolves organically by building on the past Conservatism has a natural attraction for Russia as its thousand year long history is largely characterized by revolutionary change the destructive process of uprooting the past to give way to modernity Navigating towards gradual and organic modernization has been a key struggle ever since the Mongols invaded in the early 13th century and decoupled Russia from Europe and the arteries of international trade Russian history has consisted of avoiding revolutions that are either caused by falling behind on modernization or making great leaps forward that disrupts socio economic and political traditions Russian conservatives are now tasked with harmonizing the conservative ideas of the 19th century with the revolutionary changes that shaped Russia in the 20th century The rise of Asia now provides new opportunities as it enables Russia to overcome its fixation on the West and develop a unique Russian path towards modernization that harmonizes its Eurasian geography and history

**The Decay of Western Civilisation and Resurgence of Russia** Glenn Diesen, 2018-09-03 What explains the rise of populist movements across the West and their affinity towards Russia UKIP s Brexit victory Trump s triumph and the successive elections and referendums in Europe were united by a repudiation of the liberal international order These new political forces envision the struggle to reproduce and advance Western civilisation to be fought along a patriotism cosmopolitanism or nationalism globalism battlefield in which

Russia becomes a partner rather than an adversary Armed with neomodernism and geoeconomics Russia has inadvertently taken on a central role in the decay of Western civilisation This book explores the cooperation and competition between Western and Russian civilisation and the rise of anti establishment political forces both contesting the international liberal order and expressing the desire for closer relations with Russia Diesen proposes that Western civilisation has reached a critical juncture as modern society gesellschaft has overwhelmed and exhausted the traditional community gemeinschaft and shows the causes for the decay of Western civilisation and the subsequent impact on cooperation and conflict with Russia The author also considers whether Russia s international conservatism is authentic and can negate the West s decadence or if it is merely a shrewd strategy by a rival civilisation also in decay This volume will be of interest to scholars of international relations political science security studies international political economy and Russian studies **Publishers Weekly Yearbook** ,1983 **Paperbound Book Guide for Colleges** ,1968 **Paperbacks in Print** ,1966 Air University Library Index to Military Periodicals ,1997 The Oxford Paperback Dictionary & Thesaurus Julia Elliott,Anne Knight,Chris Cowley,1997 This brand new edition of the Oxford Paperback Dictionary Thesaurus is a great value product combining a dictionary and thesaurus integrated in one volume making it an ideal reference tool for all your language needs Passion, Craft, and Method in Comparative Politics Gerardo L.
