## **The Culture Of The Meiji Period Princeton Library Of Asian Translations:**

The Culture of the Meiji Period Daikichi Irokawa,2020-03-31 The description for this book The Culture of the Meiji Period will be forthcoming

**Japanese Understanding of Salvation** Martin Heißwolf,2018-02-14 It is no secret that Christianity has been widely rejected in Japan with less than two percent of the population identifying as Christian The dominant worldview in Japan is deeply animistic with beliefs such as the Japanese mana concept ki the Japanese soul concept and the concept of God god s kami being deeply rooted in the culture and fundamentally influencing society Dr Martin Hei wolf with his years of experience in Japan critically examines Japanese animism in light of core Christian beliefs such as the concepts of peace and salvation Central to Japanese people s rejection of Christian truth is the diametric opposition of its supernatural message to the natural focus of Japanese animistic folk religion Hei wolf s meticulous study is framed squarely within missiological thought and praxis so Christians serving in Japanese contexts are better able to communicate the message of the gospel by more fully understanding Japanese people people by whom God wants to be known

**Spectacles of Authenticity** Hsuan Tsen,2011 In the late nineteenth and early twentieth centuries America and Japan were in the process of establishing their positions as powers in a world dominated by Western Europe The two nations with unconnected histories and cultures found themselves in momentary sympathy as they embarked on their first forays into military imperialism expanded their trade and constructed civic institutions intended to compete with those of Europe It was during this period that mass entertainments developed and began circulating across national borders and drawing on tourist practices helped create a universal visual culture which coexisted with local particularities This dissertation undertakes a study of Japanese and American shared visual culture and modern entertainments with the goal of nuancing current scholarship on East West exchanges and expanding the definition of modernity Three modern phenomena panoramas World s Fairs and film form the core of my three main chapters and describe a process of appropriation assimilation and collaboration through their movements from Europe across America to Japan and ending with a return to America Many scholars have observed that Americans viewed Japan as a confusing cultural other with a baffling skill at appearing modern This dissertation begins with the premise that Japan was modern and re examines American and Japanese cultural exchanges from this position with the aim of shifting the paradigms of modernity and modern visuality

**The Mayor of Aihara** Simon Partner,2009-07-13 The Mayor of Aihara brings to life in a concrete and accessible way key developments and processes affecting the Japanese countryside in the late nineteenth and early twentieth centuries that a reader might encounter in general terms in a textbook on modern Japanese history This work provides an unusually intimate and textured view of Japanese farmers and their changing world over an extended period of time carefully setting the narrative in the context of larger trends in the social political and economic history of modern Japan The result is a rich harvest of information on multiple dimensions of rural life from the perspective of an elite villager Steven J Ericson Dartmouth College

**Area**

*Bibliography of Japan* Ria Koopmans-de Brujin, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area

**Function-Based Spatiality and the Development of Korean Communities in Japan** David Rands, 2014-05-21

Function Based Spatiality and the Development of Korean Communities in Japan utilizes the theoretical model of complex adaptive systems and introduces the concept of function based spatiality to investigate the roles of the urban environments of Tokyo and Osaka in the development of Korean communities in Japan Analysis of distinct Korean communities allows for the examination of urban factors of each city which contributed to the patterns of Korean immigration and community formation By utilizing a comparative narrative of the two cities distinctions between the organic growth of Osaka and the planned city of Tokyo are illuminated Additionally the discussion utilizes the concept of function based spatiality to show how each city interacted with its surrounding regional national and global spheres The functions of Tokyo as a gateway to Western modernization and center of the Japanese state shaped the interactions with Korean immigrants Likewise Osaka's functions as a center of mercantilism and second city played a large role in how Koreans were incorporated into the urban ethnoscapes Taken together these two examples provide insight to the dynamics of urban systems on the development of immigrant communities

*Journal of Asian History*, 1985

**In Pursuit of Universalism** Alicia Volk, 2010 Volk's impressive study rethinks the East West binary often reiterated in discussions of Japanese modernism by reinserting local aspects into the universalizing tendencies of modernism itself The book makes an important contribution to the growing literature on modern Japanese art history by providing an alternative comparative framework for understanding the global development of modernism that decenters Euro America Rigorously historical in her critique Volk destabilizes our understanding of the Japanese experience of modernity through the prism of Yorozu's singular vision of the self leaving us questioning conventional wisdom and contented to wobble Gennifer Weisenfeld Duke University In Volk's affectingly stunning and deeply reflective study of the Japanese artist Yorozu Tetsugorō's work between 1910-1930 we have a profoundly historical reminder of how modernism everywhere struggled to meet the demands of the new with the readymades of received artistic practices In this study of Yorozu's utopian universalist project Volk has imaginatively broadened our understanding of the modernist moment and perceptively captured its global program to unify art and life contemporary culture and history Harry

Harootunian author of *Overcome by Modernity History Culture and Community in Interwar Japan* **The Journal of Asian Studies**, 1985 An essential resource for those interested in Asia Recognized as the leading publication in its field It features articles on the history arts social sciences and contemporary issues of East South and Southeast Asia as well as a large book review section

**Books in Series, 1876-1949** R.R. Bowker

Company,1982 **Monumenta Nipponica** ,1989 Includes section Reviews *Bibliography of Asian Studies* ,1991 *The Journal of Japanese Studies* ,1989 A multidisciplinary forum for communicating new information new interpretations and recent research results concerning Japan to the English reading world **The Culture of Sex in Ancient China** Paul R. Goldin,2002 The subject of sex was central to early Chinese thought Discussed openly and seriously as a fundamental topic of human speculation it was an important source of imagery and terminology that informed the classical Chinese conception of social and political relationships This sophisticated and long standing tradition however has been all but neglected by modern historians In The Culture of Sex in Ancient China Paul Rakita Goldin addresses central issues in the history of Chinese attitudes toward sex and gender from 500 B C to A D 400 A survey of major pre imperial sources including some of the most revered and influential texts in the Chinese tradition reveals the use of the image of copulation as a metaphor for various human relations such as those between a worshiper and his or her deity or a ruler and his subjects In his examination of early Confucian views of women Goldin notes that while contradictions and ambiguities existed in the articulation of these

views women were nevertheless regarded as full participants in the Confucian project of self transformation He goes on to show how assumptions concerning the relationship of sexual behavior to political activity assumptions reinforced by the habitual use of various literary tropes discussed earlier in the book led to increasing attempts to regulate sexual behavior throughout the Han dynasty Following the fall of the Han this ideology was rejected by the aristocracy who continually resisted claims of sovereignty made by impotent emperors in a succession of short lived dynasties Erudite and immensely entertaining this study of intellectual conceptions of sex and sexuality in China will be welcomed by students and scholars of early China and by those with an interest in the comparative development of ancient cultures     Newsletter ,1990
