The Damned Utd A Novel:

Damned Utd David Peace, 2014 The Damned Utd tells the story of the legendary Clough's tumultuous forty four days trying to turn around a corrupt institution without being corrupted himself the players who wouldn't play the management that looked the other way the wife and friends who stood by him as he fought to do the right thing The inspiring story behind the movie of the same name The Damned Utd has been called by The Times of London The best novel ever written about sport *The Damned Utd* David Peace, 2007 The Damned Utd David Peace, 2008-09-04 One of Mike Atherton's Top Ten Best Sports Books in The Times In 1974 the brilliant and controversial Brian Clough made perhaps his most eccentric decision he accepted the Leeds United manager's job As successor to Don Revie his bitter adversary he was to last only 44 days In one of the most acclaimed novels of this or any other year David Peace takes us into the mind and thoughts of Ol' Big Ead himself and brings vividly to life one of post war Britain's most complex and fascinating characters *Contemporary Masculinities in Fiction, Film and Television* Brian Baker, 2016-07-28 While masculinity has been an increasingly visible field of study within several disciplines sociology literary studies cultural studies film and tv over the last two decades it is surprising that analysis of contemporary representations of the first part of the century has yet to emerge Professor Brian Baker evolving from his previous work *Masculinities in Fiction and Film Representing Men in Popular Genres 1945-2000* intervenes to rectify the scholarship in the field to produce a wide ranging readable text that deals with films and other texts produced since the year 2000 Focusing on representations of masculinity in cinema popular fiction and television from the period 2000-2010 he argues that dominant forms of masculinity in Britain and the United States have become increasingly informed by anxiety trauma and loss and this has resulted in both narratives that reflect that trauma and others which attempt to return to a more complete and heroic form of masculinity While focusing on a range of popular genres such as Bond films war movies science fiction and the Gothic the work places close analyses of individual films and texts in their cultural and historical contexts arguing for the importance of these popular fictions in diagnosing how contemporary Britain and the United States understand themselves and their changing role in the world through the representation of men fully recognising the issues of race ethnicity class sexuality and age Baker draws upon current work in mobility studies and in the study of masculinities to produce the first book length comparative study of masculinity in popular culture of the first decade of the twenty first century **Football in Fiction** Lee McGowan, 2019-09-26 Football in Fiction represents the most comprehensive historical mapping and analysis of novels related to association football soccer It offers a theoretically informed field guide a scholarly cartography of football fiction's uncertain and until now only partially explored terrain Combining an extensive search for texts with up to date academic research journals surveys catalogues and reviews the book demonstrates a topographic perspective of the field one that captures and establishes its breadth depth and distinctive identity The book uses and adapts two distinct reading models of abstraction in conjunction with closer textual analyses

Together they assist in realising a set of demonstrable conventions outline a taxonomy of fictive types establish the genre's current state of play and advance the football novel as a form with its own literary history and traditions This book is a valuable resource for those studying and researching in the areas of the social and cultural aspects of football sports fiction sports writing creative writing and literary and genre studies Furthermore related industry professionals will find this a fascinating read particularly football writers fans of the sport and those interested in sports history and cultural phenomena

Sport, Media and Regional Identity Simon Roberts, 2015-11-25 The increasing potency of identity politics across Europe often sees sport acting as a vehicle for the promotion and celebration of regional and sub national identities However while the relationship between sport the media and national identity has featured in numerous academic and political debates in recent years the links between sports media and regional identity have received little attention This seems a curious oversight because the links between sport and region frequently become a celebration of the local and the distinctive emblematic of community and continuity This volume will explore that sense of the counter hegemonic where sport is celebrated by a media often keen to promote notions of difference which might verge on rebellion in some contexts conceived as resisting global homogeneity or national hegemony At other times they may merely reflect a commercial nose for the local audience's tastes but there is always the sense of preserving something important a celebration of the diversity that makes us human This book considers the centrality and cultural significance of particular sports or clubs to regional and sub national identities across Europe and beyond adopting a comparative approach to the mediatized nature of such portrayals

The 2000s: A Decade of Contemporary British Fiction Nick Bentley, Nick Hubble, Leigh Wilson, 2015-10-22 How did social cultural and political events in Britain during the 2000s shape contemporary British fiction The means of publishing buying and reading fiction changed dramatically between 2000 and 2010 This volume explores how the socio political and economic turns of the decade bookended by the beginning of a millennium and an economic crisis transformed the act of writing and reading Through consideration of among other things the treatment of neuroscience violence the historical and youth subcultures in recent fiction the essays in this collection explore the complex and still powerful relation between the novel and the world in which it is written published and read This major literary assessment of the fiction of the 2000s covers the work of newer voices such as Monica Ali Mark Haddon Tom McCarthy David Peace and Zadie Smith as well as those more established such as Salman Rushdie Hilary Mantel and Ian McEwan making it an essential contribution to reading defining and understanding the decade
