The Dark Mirror German Cinema Between Hitler And Hollywood:

The Dark Mirror Lutz Koepnick, 2002-10-03 Lutz Koepnick's *The Dark Mirror* provides one of the finest most compelling and suggestive accounts to date of the multiple locations of German cinema between Hitler and Hollywood. Charting the shifting relationships between institutional contexts and individual acts of reception, Koepnick persuasively shows how the German cinema and its filmmakers both in exile and in Nazi Germany contributed to a fragile, stratified, indeed nonsynchronous public sphere. Patrice Petro, author of *Aftershocks of the New Feminism and Film History*, Lutz Koepnick's brilliant study debunks the received wisdom concerning Nazi German and Hollywood film of the 1930s and 40s. Using detailed analyses of 8 films with special focus on sound and music, he insists upon the disjointed contexts and uneven relationships of American and German filmmaking. Historically nuanced and theoretically savvy, this remarkable book offers something for everyone: Americanists, Germanists, historians, students of cinema, sound and music, those interested in debates between art and popular forms, and European and Hollywood production. Caryl Flinn, author of *Strains of Utopia*.

Continuity and Crisis in German Cinema, 1928-1936 Barbara Hales, Mihaela Petrescu, Valerie Weinstein, 2016. New essays examining the differences and commonalities between late Weimar era and early Nazi era German cinema against a backdrop of the crises of that time. **The German Cinema Book** Tim Bergfelder, Erica Carter, Deniz Göktürk, Claudia Sandberg, 2020-02-20. This comprehensively revised, updated, and significantly extended edition introduces German film history from its beginnings to the present day, covering key periods and movements including early and silent cinema, Weimar cinema, Nazi cinema, the New German Cinema, the Berlin School, the cinema of migration and moving images in the digital era. Contributions by leading international scholars are grouped into sections that focus on genre, stars, authorship, film production, distribution and exhibition, theory and politics, including women's and queer cinema, and transnational connections. Spotlight articles within each section offer key case studies, including of individual films that illuminate larger histories: *Heimat*, *Downfall*, *The Lives of Others*, *The Edge of Heaven*, and many more. Stars from Ossi Oswalda and Hans Albers to Hanna Schygulla and Nina Hoss; directors including F.W. Murnau, Walter Ruttman, Wim Wenders, and Helke Sanders; and film theorists including Siegfried Kracauer and Béla Balázs. The volume provides a methodological template for the study of a national cinema in a transnational horizon. **E.A. Dupont and His Contribution to British Film** Paul Matthew St. Pierre, 2010.

Karl Freund Gavin Schmitt, 2022-02-28. Karl Freund is the most important film pioneer you've never heard of. From the silent film era to the rise of the American sitcom, Freund was there at every turn. Countless camera techniques can be traced back to his unchained camera. His lighting setup for filming *I Love Lucy* live remains standard to this day. He was the man behind the lens for many influential and award-winning films from *Metropolis* to *The Good Earth* to *Key Largo*. This biography is the first book-length look at one of the world's greatest cameramen. It details the events of his early life, his entrance into the world of film, his work in both Germany and America, and his legacy, while also putting his life and films into the historical

context of the 20th century The author gives particular attention to Freund s role in the early horror films Der Golem Dracula Murders in the Rue Morgue The Mummy and Mad Love **Wagnerism** Alex Ross,2020-09-15 Alex Ross renowned New Yorker music critic and author of the international bestseller and Pulitzer Prize finalist The Rest Is Noise reveals how Richard Wagner became the proving ground for modern art and politics an aesthetic war zone where the Western world wrestled with its capacity for beauty and violence For better or worse Wagner is the most widely influential figure in the history of music Around 1900 the phenomenon known as Wagnerism saturated European and American culture Such colossal creations as The Ring of the Nibelung Tristan und Isolde and Parsifal were models of formal daring mythmaking erotic freedom and mystical speculation A mighty procession of artists including Virginia Woolf Thomas Mann Paul C zanne Isadora Duncan and Luis Bu uel felt his impact Anarchists occultists feminists and gay rights pioneers saw him as a kindred spirit Then Adolf Hitler incorporated Wagner into the soundtrack of Nazi Germany and the composer came to be defined by his ferocious antisemitism For many his name is now almost synonymous with artistic evil In Wagnerism Alex Ross restores the magnificent confusion of what it means to be a Wagnerian A pandemonium of geniuses madmen charlatans and prophets do battle over Wagner s many sided legacy As readers of his brilliant articles for The New Yorker have come to expect Ross ranges thrillingly across artistic disciplines from the architecture of Louis Sullivan to the novels of Philip K Dick from the Zionist writings of Theodor Herzl to the civil rights essays of W E B Du Bois from O Pioneers to Apocalypse Now In many ways Wagnerism tells a tragic tale An artist who might have rivaled Shakespeare in universal reach is undone by an ideology of hate Still his shadow lingers over twenty first century culture his mythic motifs coursing through superhero films and fantasy fiction Neither apologia nor condemnation Wagnerism is a work of passionate discovery urging us toward a more honest idea of how art acts in the world *Nazis and the Cinema* Susan Tegel,2007-08 A comprehensive account of the films made in Nazi Germany from 1933 to 1945 including the notorious feature film Jud Suss and the compilation documentary Der Ewige Jude

German Politics and Society ,1986 Popular Cinema of the Third Reich Sabine Hake,2001 Too often dismissed as escapist entertainment or vilified as mass manipulation popular cinema in the Third Reich was in fact sustained by well established generic conventions cultural traditions aesthetic sensibilities social practices and a highly developed star system not unlike its Hollywood counterpart in the 1930s This pathfinding study contributes to the ongoing reassessment of Third Reich cinema by examining it as a social cultural economic and political practice that often conflicted with contradicted and compromised the intentions of the Propaganda Ministry Nevertheless by providing the illusion of a public sphere presumably free of politics popular cinema helped to sustain the Nazi regime especially during the war years Rather than examining Third Reich cinema through overdetermined categories such as propaganda ideology or fascist aesthetics Sabine Hake concentrates on the constituent elements shared by most popular cinemas famous stars directors and studios movie audiences and exhibition practices popular genres and new trends in set design the reception of foreign films the role of film

criticism and the representation of women. She pays special attention to the forced coordination of the industry in 1933 the changing demands on cinema during the war years and the various ways of coming to terms with these filmic legacies after the war. Throughout Hake's findings underscore the continuities among Weimar, Third Reich and post 1945 West German cinema. They also emphasize the codevelopment of German and other national cinemas especially the dominant Hollywood model.

Composing for the Screen in Germany and the USSR Robynn J. Stilwell, Phil Powrie, 2008 Film music was a key ingredient in the propaganda of the Nazis and Stalin. Here the contributors apply various methodologies including archival work, close readings, political histories and style comparison to investigate film music from the vibrant and politically charged period before World War II.

Caligari's Heirs Steffen Hantke, 2007 Most critical work on the horror film in Germany has been devoted to the period of the Weimar Republic and the classics it has produced including Robert Wiene's *The Cabinet of Dr Caligari* 1920 and F W Murnau's *Nosferatu* 1922. Postwar German horror film however has received little critical attention. *Caligari's Heirs* The German Cinema of Fear after 1945 is a collection of essays that corrects this oversight by providing intelligent critical analyses of a variety of German horror films from the early postwar years to the present day. Following an introduction that discusses the development of critical discourse on postwar German horror film these essays focus on four particular aspects of the genre: the immediate postwar years and the long shadow of Weimar cinema that falls over them; the dialogue between the German Autorenfilm and horror cinema; the influence of commercial American cinema on German horror films and contemporary splatter films that have received more critical attention than any other postwar German horror films. To round out the picture of this genre in the context of a specific national tradition the book also includes three interviews with contemporary German horror film directors working in both cinema and television. Though the book takes on a wide field of discussion German horror film over a period of roughly fifty years it does so by providing case studies. The essays in this collection discuss either an individual film or director or they take on larger historical issues from the discussion of the Nazi past in the postwar years to the heavy toll of German reunification. In its broad approach *Caligari's Heirs* has something to offer to three distinct audiences: the horror film fan, the reader interested in German cinema in general and the reader interested in discovering a national culture through its popular culture.

Film Architecture and the Transnational Imagination Tim Bergfelder, Sue Harris, Sarah Street, 2007 European cinema from the late 1920s to the late 1930s is famous for its attention to detail in terms of set design and visual effect. Focusing on developments in Britain, France and Germany *Film Architecture and the Transnational Imagination* Set Design in 1930s European Cinema provides a comprehensive analysis of the practices, styles and function of cinematic production design during this period and its influence on subsequent filmmaking patterns.
