Sabine Hoehn

The Democracy Makers Human Rights And The Politics Of Global Order:

The Democracy Makers Nicolas Guilhot, 2005-04-13 Has the international movement for democracy and human rights gone from being a weapon against power to part of the arsenal of power itself Nicolas Guilhot explores this question in his penetrating look at how the U S government the World Bank political scientists NGOs think tanks and various international organizations have appropriated the movement for democracy and human rights to export neoliberal policies throughout the world His work charts the various symbolic ideological and political meanings that have developed around human rights and democracy movements Guilhot suggests that these shifting meanings reflect the transformation of a progressive emancipatory movement into an industry dominated by experts ensconced in positions of power Guilhot s story begins in the 1950s when U S foreign policy experts promoted human rights and democracy as part of a democratic international to fight the spread of communism Later the unlikely convergence of anti Stalinist leftists and the nascent neoconservative movement found a place in the Reagan administration These State Department Socialists as they were known created policies and organizations that provided financial and technical expertise to democratic movements but also supported authoritarian anti communist regimes particularly in Latin America Guilhot also traces the intellectual and social trajectories of key academics policymakers and institutions including Seymour M Lipset Jeane Kirkpatrick the Chicago Boys including Milton Friedman the National Endowment for Democracy and the Ford Foundation He examines the ways in which various individuals or double agents were able to occupy pivotal positions at the junction of academe national and international institutions and activist movements He also pays particular attention to the role of the social sciences in transforming the old anti Communist crusades into respectable international organizations that promoted progressive and democratic ideals but did not threaten the strategic and economic goals of Western governments and businesses Guilhot s purpose is not to disqualify democracy promotion as a conspiratorial activity Rather he offers new perspectives on the roles of various transnational human rights institutions and the policies they promote Ultimately his work proposes a new model for understanding the international politics of legitimate democratic order and the relation between popular resistance to globalization and the Washington Consensus

Governing the World Mark Mazower, 2012-09-13 The story of global cooperation between nations and peoples is a tale of dreamers goading us to find common cause in remedying humanity s worst problems But international institutions have also provided a tool for the powers that be to advance their own interests and stamp their imprint on the world Mark Mazower s *Governing the World* tells the epic story of that inevitable and irresolvable tension the unstable and often surprising alchemy between ideas and power From the beginning the willingness of national leaders to cooperate has been spurred by crisis the book opens in 1815 amid the rubble of the Napoleonic Empire as the Concert of Europe was assembled with an avowed mission to prevent any single power from dominating the continent and to stamp out revolutionary agitation before it could lead to war But if the Concert was a response to Napoleon internationalism was a

response to the Concert and as courts and monarchs disintegrated they were replaced by revolutionaries and bureaucrats 19th century internationalists included bomb throwing anarchists and the secret policemen who fought them Marxist revolutionaries and respectable free marketeers But they all embraced nationalism the age s most powerful transformative political creed and assumed that nationalism and internationalism would go hand in hand The wars of the twentieth century saw the birth of institutions that enshrined many of those ideals in durable structures of authority most notably the League of Nations in World War I and the United Nations after World War II Throughout this history we see that international institutions are only as strong as the great powers of the moment allow them to be The League was intended to prop up the British empire With Washington taking over world leadership from Whitehall the United Nations became a useful extension of American power But as Mazower shows us from the late 1960s on America lost control over the dialogue and the rise of the independent Third World saw a marked shift away from the United Nations and toward more pliable tools such as the World Bank and the International Monetary Fund From the 1990s to 2007 Governing the World centers on a new regime of global coordination built upon economic rule making by central bankers and finance ministers a regime in which the interests of citizens and workers are trumped by the iron logic of markets Now the era of Western dominance of international life is fast coming to an end and a new multi centered global balance of forces is emerging We are living in a time of extreme confusion about the purpose and durability of our international institutions History is not prophecy but Mark Mazower shows us why the current dialectic between ideals and power politics in the international arena is just another stage in an epic two hundred year story

State Violence, Torture, and Political Prisoners Renata Meirelles, 2019-10-08 *State Violence Torture and Political Prisoners* discusses the activities of Amnesty International during the period of Brazil s dictatorship 1964 1985 During the dictatorship Amnesty assisted political prisoners who were submitted to torture and helped to publicise charges of torture against agents of the military regime s repressive apparatus Through a specific examination of Amnesty s work with Brazilian political prisoners this book explores how Amnesty adapted its organisational principles such as non violence and the focus on individual cases during this time In 1967 Amnesty experienced a severe internal crisis which prompted the organisation to make structural changes These changes enabled it to expand its activities beyond Europe to Latin America including Brazil This book examines one of Amnesty International s first major campaigns against torture and the impact this had on the organisation s development of a new agenda Bringing a critical and historical perspective on Amnesty s work the book contributes to the debate on the role of human rights organisations in addressing human rights abuses worldwide It makes a significant contribution to international research on state crime human rights and torture

The Politics of Expertise Matthew Hilton, Jean-François Mouhot, 2013-04-25 Offers a challenging new interpretation of politics in contemporary Britain through an examination of non governmental organisations Demonstrate how politics and political activism has changed over the last half century

U.S. Power and the Social State in Brazil Júlio Cattai, 2021-12-29 The

book analyzes the elite led efforts to transform the Brazilian legal order in the period between 1930 1975 and how U S Power played a major role in such a process Besides the global circulation of ideas the book discusses the Brazilian institutional development in the period A profound Crisis of Civilization marked the first decades of the century the references of space and time vanished with the vertiginous expansion of cities and industries while a myriad of immigrants and former slaves were alleged to be threatening the country s traditions Brazilian elites blamed liberalism for such a Crisis Based on a decade of research this book centralizes Brazilian history in liberalism and offers a genealogy of the jurisprudential and institutional struggles to correct the culture of laissez faire Using archival sources it shows the direct U S influence on Brazilian thought and development Recasting the history of legal ideas in the 20th century and providing novel interpretations on major political processes it offers a rigorous and fresh look at the development of liberalism in the country Covering five decades of history and offering a transnational approach involving the U S hegemonic role in Brazil this book will be of interest to scholars and students of law U S foreign policy area studies and international relations

NGOs as Newsmakers Matthew Powers, 2018-05-15 As traditional news outlets international coverage has waned several prominent nongovernmental organizations have taken on a growing number of seemingly journalistic functions Groups such as Amnesty International Human Rights Watch and M decins Sans Fronti res send reporters to gather information and provide analysis and assign photographers and videographers to boost the visibility of their work Digital technologies and social media have increased the potential for NGOs to communicate directly with the public bypassing traditional gatekeepers But have these efforts changed and expanded traditional news practices and coverage and are there consequences to blurring the lines between reporting and advocacy In *NGOs as Newsmakers* Matthew Powers analyzes the growing role NGOs play in shaping and sometimes directly producing international news Drawing on interviews observations and content analysis he charts the dramatic growth in NGO news making efforts examines whether these efforts increase the organizations chances of garnering news coverage and analyzes the effects of digital technologies on publicity strategies Although the contemporary media environment offers NGOs greater opportunities to shape the news Powers finds it also subjects them to news media norms While advocacy groups can and do provide coverage of otherwise ignored places and topics they are still dependent on traditional media and political elites and influenced by the expectations of donors officials journalists and NGOs themselves Through an unprecedented glimpse into NGOs newsmaking efforts Powers portrays the possibilities and limits of NGOs as newsmakers amid the transformations of international news with important implications for the intersections of journalism and advocacy

The Endtimes of Human Rights Stephen Hopgood, 2013-11-18 We are living through the endtimes of the civilizing mission The ineffectual International Criminal Court and its disastrous first prosecutor Luis Moreno Ocampo along with the failure in Syria of the Responsibility to Protect are the latest pieces of evidence not of transient misfortunes but of fatal structural defects in international humanism Whether it is the increase in deadly attacks on aid workers the torture and

disappearing of al Qaeda suspects by American officials the flouting of international law by states such as Sri Lanka and Sudan or the shambles of the Khmer Rouge tribunal in Phnom Penh the prospect of one world under secular human rights law is receding What seemed like a dawn is in fact a sunset The foundations of universal liberal norms and global governance are crumbling from The Endtimes of Human Rights In a book that is at once passionate and provocative Stephen Hopgood argues against the conventional wisdom that the idea of universal human rights has become not only ill adapted to current realities but also overambitious and unresponsive A shift in the global balance of power away from the United States further undermines the foundations on which the global human rights regime is based American decline exposes the contradictions hypocrisies and weaknesses behind the attempt to enforce this regime around the world and opens the way for resurgent religious and sovereign actors to challenge human rights Historically Hopgood writes universal humanist norms inspired a sense of secular religiosity among the new middle classes of a rapidly modernizing Europe Human rights were the product of a particular worldview Western European and Christian and specific historical moments humanitarianism in the nineteenth century the aftermath of the Holocaust They were an antidote to a troubling contradiction the coexistence of a belief in progress with horrifying violence and growing inequality The obsolescence of that founding purpose in the modern globalized world has Hopgood asserts transformed the institutions created to perform it such as the International Committee of the Red Cross and recently the International Criminal Court into self perpetuating structures of intermittent power and authority that mask their lack of democratic legitimacy and systematic ineffectiveness At their best they provide relief in extraordinary situations of great distress otherwise they are serving up a mixture of false hope and unaccountability sustained by human rights as a global brand The Endtimes of Human Rights is sure to be controversial Hopgood makes a plea for a new understanding of where hope lies for human rights a plea that mourns the promise but rejects the reality of universalism in favor of a less predictable encounter with the diverse realities of today s multipolar world *Great Delusion* John J. Mearsheimer, 2018-09-25 A renowned scholar argues that liberal hegemony the policy America has pursued since the Cold War ended is doomed to fail Named a Financial Times Best Book of 2018 Idealists as well as realists need to read this systematic tour de force Robert D Kaplan author of The Return of Marco Polo s World It is widely believed in the West that the United States should spread liberal democracy across the world foster an open international economy and build international institutions The policy of remaking the world in America s image is supposed to protect human rights promote peace and make the world safe for democracy But this is not what has happened Instead the United States has become a highly militarized state fighting wars that undermine peace harm human rights and threaten liberal values at home In this major statement the renowned international relations scholar John Mearsheimer argues that liberal hegemony the foreign policy pursued by the United States since the Cold War ended is doomed to fail It makes far more sense he maintains for Washington to adopt a more restrained foreign policy based on a sound understanding of how nationalism and realism

constrain great powers abroad The Great Delusion is a lucid and compelling work of the first importance for scholars policymakers and everyone interested in the future of American foreign policy **The Role of International Law in Rebuilding Societies After Conflict** Brett Bowden,Hilary Charlesworth,Jeremy Matam Farrall,2009-04-16 The genesis of this book was a workshop entitled Empire or Empowerment The Role of International Law in Building Democracy and Justice after Conflict held at the Australian National University in Canberra on 9 10 August 2007 Human Rights Campaigning in Context Sabine Hoehn,2008 The Politics of Human Rights Tony Evans,2005-05-20 This is a new edition of this popular introduction to the politics of human rights Tony Evans argues that the state s central role in protecting and promoting rights has been severely weakened under globalization and that as a consequence human rights are becoming less attainable As the value of the market grows the value of individual human rights decreases The author departs from traditional interpretations of human rights by focusing on the political economy of human rights rather than on the philosophical or legal aspects He analyses how issues related to globalization such as the environment population movement patterns and free trade impact on individual human rights In conclusion he argues that the Universal Declaration on Human Rights and other major treaties must be renegotiated to take globalization into account Measuring Democracy Gerardo L. Munck,2009-04-15 Drawing on years of academic research on democracy and measurement and practical experience evaluating democratic practices for the United Nations and the Organization of American States the author presents constructive assessment of the methods used to measure democracies that promises to bring order to the debate in academia and in practice He makes the case for reassessing how democracy is measured and encourages fundamental changes in methodology He has developed two instruments for quantifying and qualifying democracy the UN Development Programme s Electoral Democracy Index and a case by case election monitoring tool used by the OAS *America, History and Life* ,2006 Article abstracts and citations of reviews and dissertations covering the United States and Canada *American Book Publishing Record* ,2003 *International Journal* ,2006 Latin American Research Review ,2007 **Yearbook of International Organizations 2014-2015 (Volume 4)** Union Of International Associations,Union of International Associations,2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations The Nation ,1914 **Journal of South Asian**

and Middle Eastern Studies ,2007 Foreign Affairs ,2005

Embracing the Song of Appearance: An Psychological Symphony within **The Democracy Makers Human Rights And The Politics Of Global Order**

In a global used by displays and the ceaseless chatter of instantaneous communication, the melodic beauty and psychological symphony produced by the prepared term often diminish in to the backdrop, eclipsed by the relentless noise and disruptions that permeate our lives. Nevertheless, located within the pages of **The Democracy Makers Human Rights And The Politics Of Global Order** a wonderful fictional prize filled with natural feelings, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, this captivating masterpiece conducts readers on a mental journey, well unraveling the concealed tunes and profound impact resonating within each cautiously crafted phrase. Within the depths with this touching review, we shall explore the book is central harmonies, analyze their enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
